

## DisplayPort to DVI-D Adapter Cable – M/M, DP w/Latches, 1920 x 1200 (1080p) @ 60 Hz, 15 ft.

MODEL NUMBER: P581-015

DisplayPort to DVI-D cable converts a DisplayPort video signal for display on a DVI-D single-link monitor, projector or TV.

### Features

#### DisplayPort to DVI-D Converter Sends HD Video to Your Current DVI-D Display Device

This 15-foot DisplayPort to DVI-D cable connects the DisplayPort output on your PC, laptop or Ultrabook to the DVI-D single-link input on your monitor, projector or television. No separate adapter or cable is needed. This allows you to continue using your existing DVI-D display for video without the expense of buying a new DisplayPort monitor.

#### Simple Solution for Displaying 1080p Video on a Large Screen or Secondary Monitor

The P581-015 is ideal for the office, classrooms, lecture halls and anywhere else you may need to connect your DisplayPort source to a DVI monitor. It also allows you to conveniently connect an additional monitor to your home or office workspace. The DisplayPort to DVI-D cable with durable molded ends supports high-definition video resolutions up to 1920 x 1200 (including 1080p) at 60 Hz.

#### Secures Tightly to Female Ports to Ensure a Secure Connection

Latches on the male DisplayPort plug and thumbscrews on the male DVI plug prevent the cable from being accidentally dislodged and interrupting vital video transmission.

#### Passive Adapter for Use with Dual-Mode DisplayPort Sources

This cable is a passive adapter that requires the connected computer to support DisplayPort++ (DP++). This allows DVI signals to be passed through. Check the documentation for your DisplayPort source for compatibility.

#### Ready to Use Right from the Package, So You Can Plug and Play Immediately

The plug-and-play DisplayPort to DVI-D converter requires no software, drivers or external power, works with both Windows and Mac operating systems, and is compatible with laptops and other devices equipped with a DisplayPort output that supports DP++. Its 15-foot length is helpful when an extended reach is needed, such as connecting to a projector.

#### 3-Year Warranty

The P581-015 is backed by a 3-year warranty, ensuring reliability and performance.

### Highlights

- Outputs DisplayPort video to your current DVI display to avoid expense of new monitor
- Delivers HD video quality at resolutions up to 1920 x 1200 (including 1080p) @ 60 Hz
- Extended 15 ft. length convenient for connecting to projectors and other far displays
- Plug-and-play operation with no software required for easy, immediate installation
- Passive adapter requires connected computer to have DP++ port for signal pass-through

### Applications

- Use your existing DVI display with a new DisplayPort computer to avoid the expense of a new DisplayPort monitor
- Add a second monitor to your home or office workspace
- Video presentations in a classroom, lecture hall or conference room

### System Requirements

- Source device with DisplayPort output that supports DisplayPort++
- Display device with DVI-D input
- Not for use with MST Hubs. For compatibility with MST Hubs, use a DisplayPort 1.2 compliant product, such as P581-006-V2.

### Package Includes

- P581-015 DisplayPort to DVI-D Adapter Cable – M/M, DP w/Latches, 1920 x 1200 (1080p) @ 60 Hz, 15 ft.
