

USB 3.0 BoostLinq - 33ft (10m)

GUE310

- 33ft USB 3.0 Type-A male to Type-A female SuperSpeed extension cable
- Built-in booster chipset amplifies USB 3.0 signals
- USB 3.0 transfer rates of up to 5Gbps
- Plug & Play design-no drivers or power supply needed
- Daisy chain up to 5 BoostLinqs to reach a maximum distance of 164ft*
- Up to 10x faster than USB 2.0
- Backwards compatible with USB 2.0 and 1.1 devices

*Requires optional power supply

The IOGEAR GUE310 USB 3.0 Booster Extension Cable uses active electronics to amplify the USB signal and maintain USB 3.0 SuperSpeed data transfers over extended distance, with no loss of data integrity or signal quality. The cable has male and female USB type "A" connectors. The USB "A" connector is the rectangular shaped plug found on PC's, hubs, and many other host interfaces. The IOGEAR USB 2.0 Booster Extension Cable extends from the host and provides another female "A" connector for longer distance USB needs.

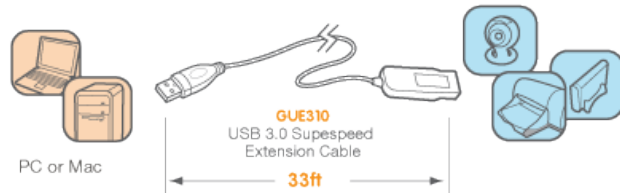

The cable is transparent to the host and the device and it is compatible with both PC and Mac computers, and is backwards compatible with USB 2.0 and 1.1 devices. It is ideal for applications that require distance between a user and the peripheral but still need the data transfer speeds of USB 3.0, such as webcams, hard drives, etc. The IOGEAR USB 2.0 Booster Extension Cable is Plug-and-Play, no additional drivers or complicated set up required. The IOGEAR GUE310 USB 3.0 Booster Extension Cable also gives you the ability to daisy-chain a maximum of five cables together in order to reach up to a total of 166 feet of USB 3.0 SuperSpeed connection.

USB 3.0 BoostLinq - 33ft (10m)

How does it work?

- Connect the GUE310 to your computer
- Connect & sync USB 3.0 devices up to 33ft away

Product Requirements

- Windows Vista®, Windows 7®, Windows® 8/8.1
- Mac OS X 10.6 and above
- Available USB 3.0 Port

Package Contents

- 1 x 3.0 BoostLinq - 33ft (10m) cable
- 1 x USB Type-A female to male adapter
- 1 x Quick Start Guide
- 1 x Warranty Card

Specifications
