

MPN: MMG3834/8GB

## 8GB Memory Module 1866Mhz DDR3

### Major DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

## Specifications

|                    |                            |            |
|--------------------|----------------------------|------------|
| Features           | Component for              | PC/server  |
|                    | ECC                        | Yes        |
|                    | Internal memory            | 8 GB       |
|                    | Internal memory type       | DDR3       |
|                    | Memory clock speed         | 1866 MHz   |
|                    | Product colour             | Green      |
|                    |                            |            |
| Package dimensions | Depth (package,cm)         | 3 cm       |
|                    | Gross Weight (Package, kg) | 0.02 kg    |
|                    | Height (package,cm)        | 14.5 cm    |
|                    | Width (package,cm)         | 8 cm       |
| Product dimensions | Net Weight (Product, kg)   | 0.01 kg    |
|                    | Product Depth              | 3 cm       |
|                    | Product Height             | 14.5 cm    |
|                    | Product Width              | 8 cm       |
| Vendor information | Brand Name                 | CoreParts  |
|                    | Warranty                   | 10 Year(s) |
