70" Class **4T-B70CJ1U**

80" Class **4T-B80CJ1U**

March 2020

SHARP Imaging and Information Company of America

Enhancing Visual Experiences

SHARP

The 60" Class (60.1" diagonal), 70" Class (69.5" diagonal) and 80" Class (80.0" diagonal) 4T-B Series are the latest 4K Commercial displays from Sharp.

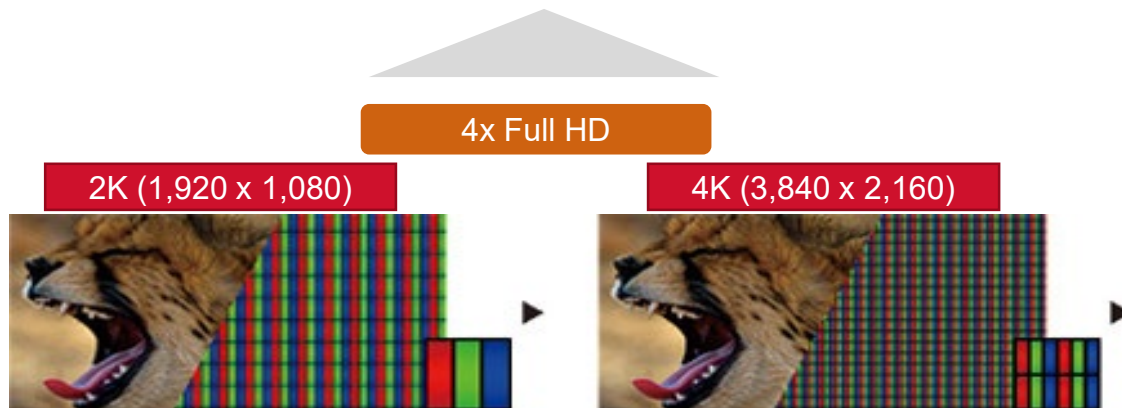

Its 4K (3,840 x 2,160 pixel) screen allows for more image details, sharper pictures and dynamic content at the various screen sizes.

Superb 4K Quality

Displays can express all the detail and visual impact of the selected content

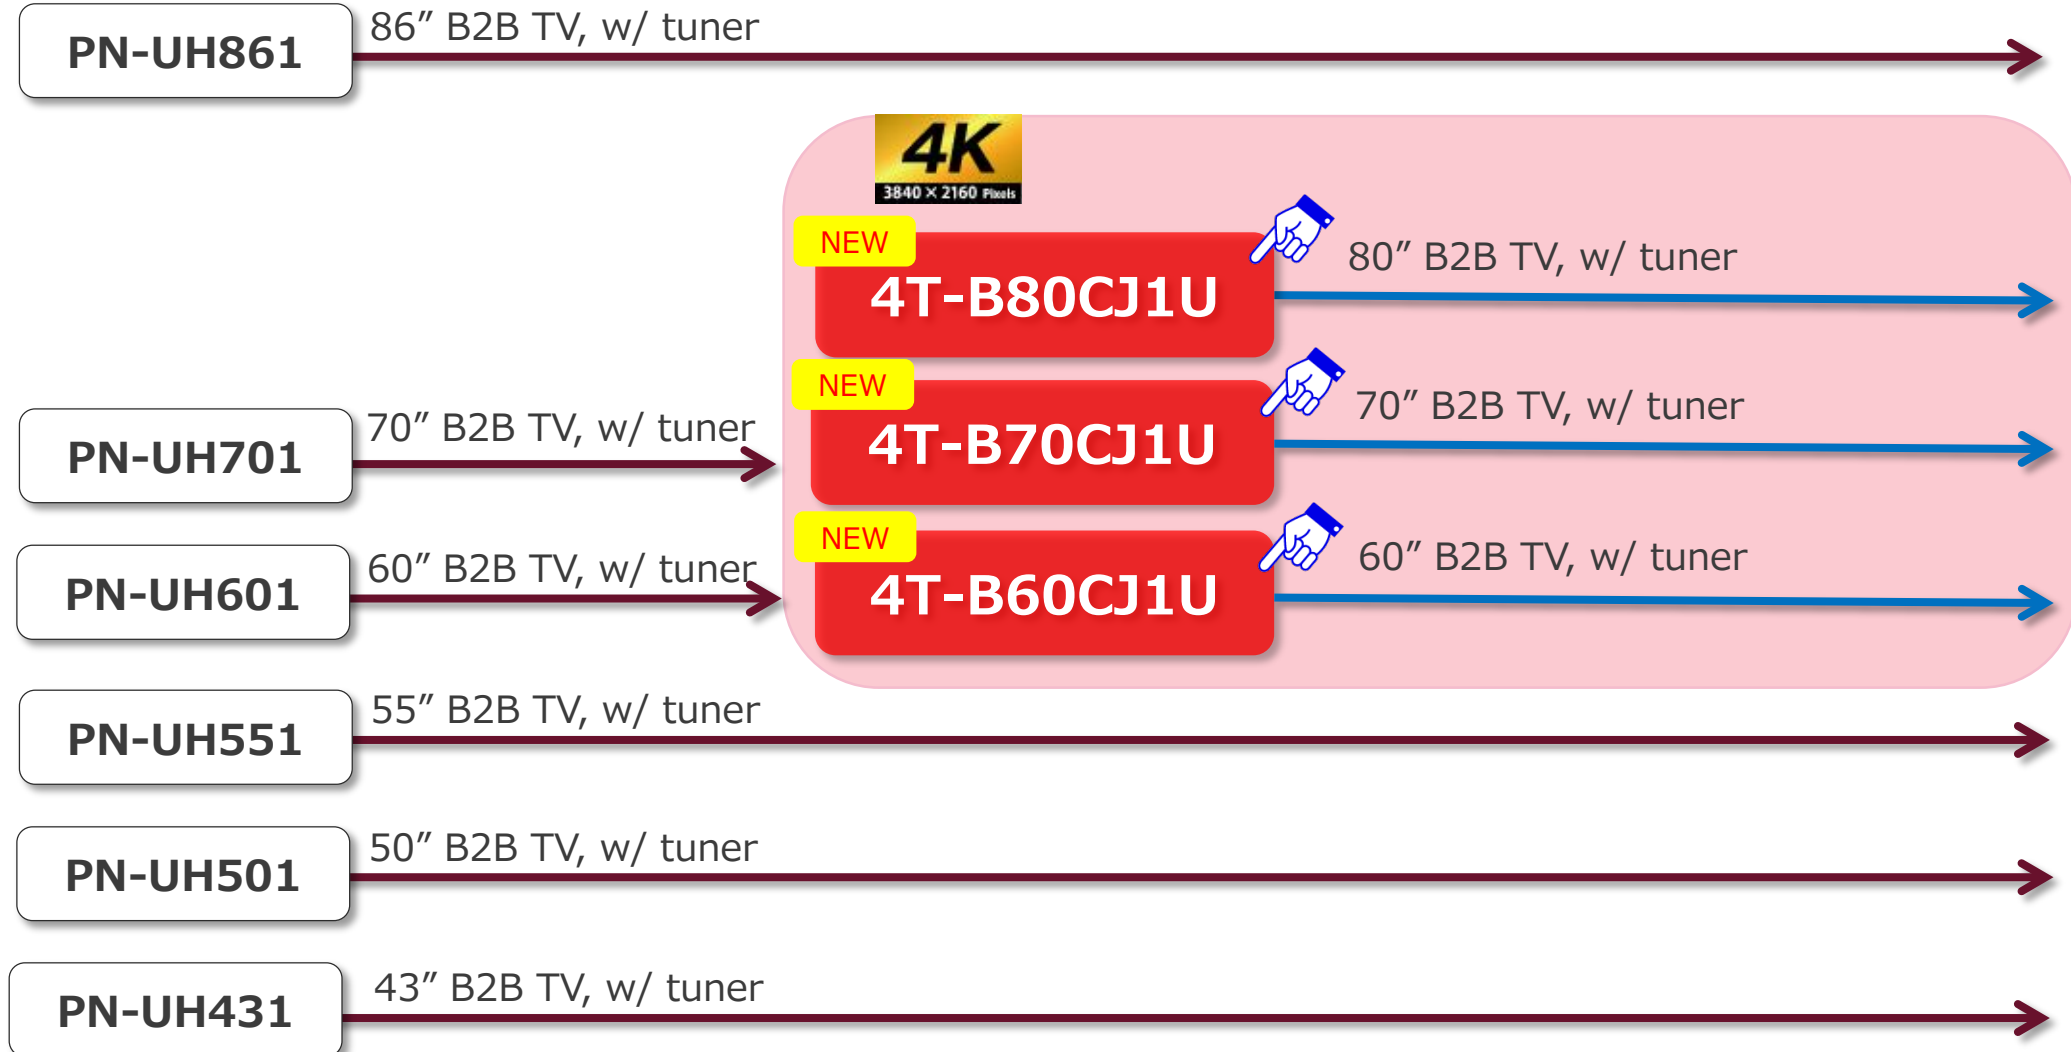

Streamlined Design

Slim bezel and minimal protruding parts makes for easy placement in commercial establishments

2020 Commercial Line

SHARP

Key Features

SHARP

Superb Image Quality; Choice of Screen Size

4K Ultra-HD (3,840 x 2,160 pixels) Resolution

Comes in 3 sizes - 60", 70", 80" Class sizes
(60.1", 69.5", 80.0" diagonal, respectively)

Built-in NTSC/ATSC tuner

Allows monitor to be used for broadcast as well as signage applications

Enhanced Audio

Sounds as good as it looks

- Built-in, 10W + 10W speakers eliminate the need for external speakers.
- Built-in Dolby® MS11 Multistream Decoder ensures compatibility with premium audio formats.

Built-in Media Player

A large playback source is not necessary
Easy installation, space-efficient & lowers total cost of ownership

- 4T-B series displays can play photo slideshows and videos – all without a PC or set-top box.
- The built-in USB media player lets you play 4K Ultra-HD photos, full HD videos, or music stored on a connected USB memory device

Key Commercial Benefits

SHARP

RS-232C & LAN control

Allows for remote control and command for commercial settings

Lock function

Prevents unwanted adjustments by people in public locations

Fanless architecture

Maintains airflow while dissipating heat, without the use of noisy, dust-creating mechanical ventilation fans

Slim body and thin bezel

Its symmetrical design integrates well into nearly all commercial and public environments

Deliver Crowd-Pleasing 4K to Any Location

Entertainment

Hospitality

Retail

Casual Office Meetings

Formal Business Meetings

Weight (approx.) (display only)		77.8 lbs	55.5 lbs	42.1 lbs

^{*1} Brightness depends on input mode and other picture settings. Brightness level will decrease slightly over the lifetime of the product. Due to the physical limitations of the equipment, it is not possible to maintain a precisely constant level of brightness. ^{*2} Use a commercially available connection cable for PC and other video connections.

Ports available for a variety of AV needs

- 2x HDMI™
- 1x AV IN
- USB (DC5V 1.5A)
- RS-232C (w/included 3.5mm adapter)
- 3.5mm audio output
- Ethernet (10/100 BASE-T) Network connector
- Antenna/Cable

- Are tabletop stands available for use in testing and proof of concept?
 - These models include detachable foot stands, making testing and temporary set-up a breeze.

- Is there a built-in wireless function?
 - Yes... there is a built-in wireless function for DLNA servers interaction and limited display control.

- How many HDMI ports are available?
 - 2 HDMI ports are built-in.
 - If additional ports are needed, low-cost, 3rd party, 4K Ultra-HD, HDMI switches are commonly available.

- Are there apps (Netflix, etc.) onboard?
 - No... this type of smart TV function is not integrated into Sharp's commercial displays.

- Are Miracast/casting options available?
 - These models will support most 3rd party HDMI wireless display adaptors.
 - They do not have built-in Miracast.

The SHARP logo is displayed in a bold, red, sans-serif typeface. The letters are thick and closely spaced. A small registered trademark symbol (®) is positioned at the bottom right of the letter 'P'.
