

Solution brief

HP Anyware Trust Centre

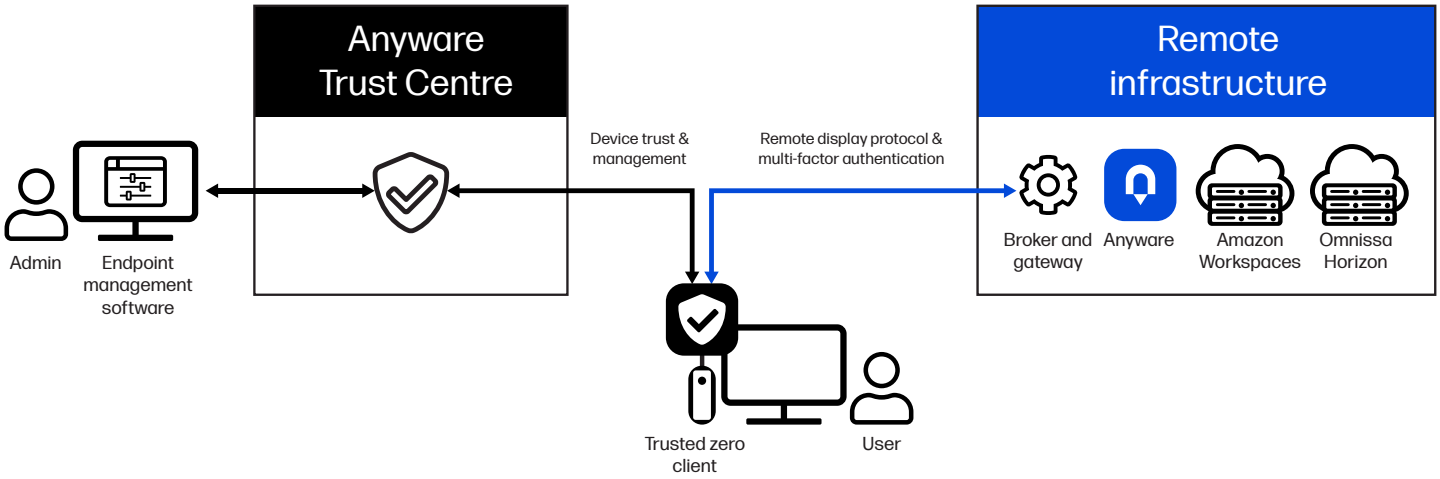

Securely manage trusted endpoints with a zero-trust engine that simplifies deployments and enforces real-time compliance.

Benefits

- Manage the capabilities, features and firmware of trusted zero clients
- Verify birth certificates and ongoing operational certificates of trusted endpoints to grant access to your secured network
- Evaluate each trusted transaction between a client and host, and view device logs for monitoring the state of your devices
- Configure endpoint policies and enforce endpoint activity

Highlights

- Control and easily update firmware of trusted zero clients
- Provision, onboard and register trusted devices within your zero-trust network
- Monitor access behaviour to enable secure trusted connections
- Create trust policies for trusted devices

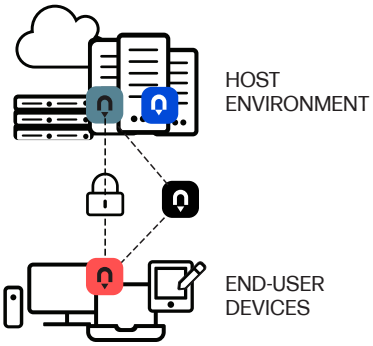

Service overview

The HP Anyware Trust Centre is a zero-trust policy engine for digital workspaces to help IT integrate a zero-trust architecture into their endpoint management strategy. Interfacing with endpoint management tools, the Anyware Trust Centre ensures trusted endpoints and components adhere to security policies by providing real-time responses to policy incidents.

Deployment options

HP Anyware is being architected for zero trust with the release of the Anyware Trust Centre. HP Anyware Trust Centre is a service that can be accessed by select third-party endpoints.

PCoIP Agents

IT teams deploy remote desktops and workstations in any data centre by installing Anyware Agents.

Manager

IT administrators secure, broker, provision and monitor connections with Anyware Manager.

Trust Centre

IT administrators access the zero-trust policy engine for a more secure way to manage and monitor Anyware trusted clients.

Trusted clients

Users access their remote machines from any zero client, thin client, PC, Mac, laptop or tablet.

How to buy

Your subscription is based on the number of PCoIP devices being managed by the HP Anyware Trust Centre.

For trusted zero-client customers, the subscription also gets you firmware updates and support. Your first year's subscription is included with the purchase of your new trusted zero client and includes access to the full feature set of Anyware Trust Centre. Without a subscription, you can only access a limited management and security feature set.
