

USB Gaming Headset with Built-In Microphone, Audio Control and LEDs

MODEL NUMBER: **AHS-002-LED**

Adjustable headphones provide an immersive experience for online gaming, multimedia and work-from-anywhere applications.

Features

USB Headset Ideal for Gaming, Movies, Music, Work Conferences and Virtual Happy Hours

The AHS-002-LED connects to your laptop, PC or Sony PlayStation's USB-A port to provide crisp stereo sound during video conferences, webinars, music and movie streaming, Skype happy hours with friends and fully immersive online gameplay. Recommended for home, office and work-from-anywhere applications, the USB headset features a long cord that allows you the luxury to stand up and stretch during lengthy conversations, extended work meetings and marathon gaming sessions.

Adjustable Microphone Helps You Find the Perfect Voice Level

You can wear the built-in microphone on either side of your head. The flexible boom-style mic rotates manually to make sure your voice is heard at the proper level, even while broadcasting from a noisy room.

In-Line Control Panel Lets You Adjust Audio on the Fly

The built-in USB cable features audio controls right at your fingertips, so you can adjust the volume, turn off incoming audio or mute your microphone with just a touch.

Designed for Deluxe Comfort and LED Enrichment

The adjustable headband and soft padded ear covers are designed for maximum comfort, even during gaming marathons, movie double features and long conference calls at work. Bright LEDs along both ear covers blink randomly in various colors and add vibrant verve to your gaming setup.

Compatible with Most Apps and Operating Systems

The AHS-002-LED works with computers and laptops running Windows and mac OS, as well as PlayStation 3 and PlayStation 4 gaming consoles. It's also compatible with most popular video clients, including Zoom, Skype, Microsoft Teams, GoToMeeting and Google Duo. Just connect the headset to your device's USB-A port to start chatting, listening and playing immediately.

Highlights

- Booming stereo sound enhances gameplay, music, movies and video conferences
- Built-in microphone rotates manually to help you find the right angle for your voice
- In-line audio controls on the cord allow easy volume and mute adjustments
- Adjustable headband and soft foam ear pads provide comfort even during all-day use
- Color-changing LEDs provide vibrant ambience and enhance your gaming atmosphere
