1 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.

2 Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions and environmental factors. See **www.usa.canon.com/ChromaLife100** for additional details.

3 Specifications are subject to change without notice. All printer output images are simulated.

4 PPM print speeds are based on the highest speed printer driver mode using black and white and color text patterns. Photo print speeds are based on the standard mode driver setting using photo test pattern(s) and select Canon Photo Paper. Print speed measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See **www.usa.canon.com/printspeed** for additional information.

5 System requirements vary by application.

6 See **www.usa.canon.com** for additional details.

7 Warranty programs are subject to certain conditions and restrictions. See **www.canontechsupport.com** for details.
