HP Pro SFF 400 G9 Desktop PC

Versatile to meet your ever-changing business needs

Keep up with the varied needs of your business. The small and capable HP Pro SFF 400 features strong security and performance. Scalable architecture and connectivity options make the most of your investment—now and in the future.

*Product image may differ from actual product

Expansion that extends your investment

The HP Pro SFF 400 has an m.2 slot for WLAN and one for storage, one PCIe x16 slot, and one PCIe x1 slot.

Boost your productivity

 Increase productivity and tackle a range of workflows with video ports supporting up to three displays.³

Protected by HP Wolf Security

- HP Wolf Security for Business creates a hardware-enforced, always-on, resilient defense. From the BIOS to the browser, above, in, and below the OS, these constantly evolving solutions help protect your PC from modern threats.⁵
- Rest easy with a PC that undergoes MIL-STD 810 testing and 120,000 hours of the HP Total Test Process. Reduce airborne particulate intake with an optional dust filter that helps extend the life of your PC.^{6,7,8}
- Configure your desktop's CPU for the perfect combination of performance, power consumption, and value. The latest Intel[®] processor handles multiple work tasks smoothly and reliably with multiple processing cores to divide up the work.²
- Get power and performance built for small form factors and a range of multi-app workflows. Optional NVIDIA® T400 graphics lets you focus on what matters most with this visual computing platform for mission-critical business.⁴
- With two standard native video ports and one configurable flex video port, this small form factor PC can support up to three displays—increasing productivity and providing more space for your multi-tasking day.⁹
- HP Sure Admin, a modern BIOS management tool, eliminates the need for a password or BIOS configuration utility in the OS by creating a digital signature that allows IT administrators to securely manage BIOS settings over a network.¹⁰
- Help protect your PC from websites and read-only Microsoft Office and PDF attachments with malware, ransomware, or viruses with hardware-enforced security from HP Sure Click.¹¹
- Firmware attacks can completely devastate your PC. Stay protected with HP Sure Start Gen7, the self-healing BIOS that automatically recovers itself from attacks or corruption.¹²
- A high-efficiency power supply, ocean-bound plastics used in the speaker box, and moldedpulp packaging help reduce the impact on the environment.¹⁴
- Get next-gen memory performance with 3200MHz DDR4 memory, which works in sync with your CPU, and holds more data at a lower voltage than previous generations.⁴
- Effortlessly connect peripherals with a convenient USB Type-C[®] port on the front panel of your HP Pro Small Form Factor Desktop.
