

Canon

PIXMA MP160 Photo All-In-One

**4800x
1200dpi
Maximum**

High resolution: Precision ink nozzles create high resolution photos—up to 4800 x 1200 color dpi¹

**2pl
Minimum**

Fine detail: Microscopic 2-picoliter sized ink droplets produce finely detailed photos.

Click-Connect-Print: Just capture an image with a PictBridge ready digital camera/DV camcorder, then connect and print!

Impressive scans: Produce high-quality scans up to 600 dpi with vibrant 48-bit color depth.

Long-lasting photos: Using select genuine Canon inks and photo papers, you can create beautiful photos that last up to 100 years²

Copy/scan thick originals: You can even copy or scan thick items that do not lie flat on the platen.

**USB 2.0
Hi-Speed**

Faster data: The USB 2.0 interface enables the fastest possible image transfers and scanning speeds³

Smart Copying: Dual Color Gamut Processing Technology automatically optimizes copy quality based on the type of originals you are copying.

Compact and Stylish All-In-One Photo Printer.

This no-compromise Photo All-In-One lets you get more done, including printing beautiful, long-lasting photos right at home. The included Dual Color Gamut Processing Technology (DCGPT) ensures copies will be true to your originals' images and text. The unique Z-Lid expansion top lets you produce clear, complete scans even of thick originals like personal notebooks. You can even print photos directly from a PictBridge compatible camera or DV camcorder—no computer required!

- 1 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.
- 2 Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, drying time, display/storage conditions and environmental factors. See www.consumer.usa.canon.com/ChromaLife100 for additional details.
- 3 USB 2.0 Hi-Speed requires Windows XP, 2000 or Mac OS X operating systems. For Windows 98, Me and Mac OS X v.10.2 to 10.2.6 operating systems, the printer will operate at USB 1.1 specifications.
- 4 PPM print speeds are based on the highest speed printer driver mode using black and white and color text patterns. Photo print speeds are based on the default mode driver setting using photo test pattern(s) and Canon Photo Paper Plus Glossy paper. Print speed measured as soon as first page begins to feed into printer and will vary depending on system configuration, interface, software, document complexity, print mode, types of paper used and page coverage. See www.usa.canon.com/printspeed for additional details. CPM copy speeds are based on fast mode setting using plain paper. Copy speeds may vary based on document complexity, copy mode, page coverage and number of copies.
- 5 Specifications are subject to change without notice. All viewscreen and printer output images are simulated.
- 6 System requirements vary by application.
- 7 ScanSoft OmniPage SE (OCR Software) does not support Windows 98 first edition.
- 8 Warranty programs are subject to certain conditions and restrictions. See www.canontechsupport.com for details.
