

Universal 3-in-1 Pro Audio Headset Switch

Switch between three devices with one headset.

K83300WW

Product Description

Kensington's Universal 3-in-1 Pro Audio Headset Switch allows professionals to use their favorite wired or wireless headset (Bluetooth, USB-C, USB-A, or 3.5mm) as they switch between different devices (laptops, phones, and tablets). Accommodates up to three different audio sources, automatically remembers previously paired devices, eliminates the need for multiple headsets, and works with Microsoft Teams, Google Meet, Zoom, WebEx, and more.

Features

- Use your favorite headset (Bluetooth, USB-C, USB-A, or 3.5mm wired) across different devices and operating systems - including laptops, phones, and tablets. USB-C (m) to USB-A (f) headset adapter included.
- Join meetings on Microsoft Teams or Zoom while transitioning to music on Spotify or Apple Music without changing your headset - increasing your productivity and decluttering your desktop.
- Easily transitions between audio sources and automatically connects to one wired and two paired (Bluetooth) devices - leveraging premium channel isolation so you always sound like a pro.
- Dedicated buttons help you easily transition between audio sources, LED lights provide confirmation of the channel and device you are using, and precise switching guarantees uninterrupted connections.
- Easy to reach volume controls and a mute button that will silence microphone signals across all wired and paired devices - while illuminating red so you can be confident that you are definitely muted.
- No outlet required - simply attach to any open USB-A port (5V/0.9A) on your Windows or macOS computer to power and enable data transfer for audio. Includes one 1m (3.3ft) USB-C to USB-A cable.
- Connect with confidence knowing Kensington stands behind the Universal 3-in-1 Pro Audio Headset Switch with a 2-year limited warranty.
