

Wireless Apple CarPlay Adapter for Vehicles, Apple iPhone Compatible, Black

MODEL NUMBER: U264-001-APL

Creates a wireless connection between a vehicle and an Apple iPhone to operate Apple CarPlay functions.

Features

Enhance Your Driving Experience with a Wireless CarPlay Experience

The U264-001-APL adapter provides a wireless connection to Apple CarPlay in vehicles that require a wired CarPlay connection. It is compatible with Apple iPhone 6 or later models that are on iOS 10 and above. Not only does this adapter reduce cable clutter in your vehicle, it also allows you to operate CarPlay functions such as music and podcast control, answer calls and texts via voice-to-text, navigate via Apple Maps and make voice commands through Siri. An included USB-A to USB-C adapter lets you connect to either port in a vehicle.

Easy Installation Allows for Quick Setup and Recurring Use

An ideal tool for travelers, particularly sales professionals always on the go, this adapter uses a combination of Bluetooth and Wi-Fi to establish a pairing between the phone and the vehicle and switches to Wi-Fi to maintain the wireless connection. Once the initial connection is established, the U264-001-APL will instantly reconnect to the phone moving forward. A green LED indicates that a connection is established. **Note:** The U264-001-APL is only compatible with vehicles that require a wired CarPlay connection. Vehicles with support for a Bluetooth connection to CarPlay do not require this device.

Highlights

- Recommended for daily travel use, especially sales pros who are always on the go
- Reduces cable clutter in your vehicle while enabling music, navigation, Siri control and more
- Included USB adapter allows connection with your vehicle's USB-A or USB-C port
- Compatible with Apple iPhone 6 or later models that are on iOS 10 and above
- Plug-and-play operation with no software required for easy, immediate installation

System Requirements

- Vehicle with support for wired Apple CarPlay (**Note:** Vehicles that support Apple CarPlay via a Bluetooth connection do not require this device)
- Apple iPhone 6 or later model on iOS 10 or above

Package Includes

- U264-001-APL Wireless Apple CarPlay Adapter
- USB-A to USB-C adapter
- Installation instructions
