Product Description

Ideal for professionals seeking a single docking solution that can support up to four external Ultra HD monitors, while also catering to mixed technology environments, the SD4790P USB-C® and USB-A 10Gbps Quad 4K Hybrid Dock supports the latest USB-C® and legacy USB-A* laptops with video, data, and power—including triple monitor support for MacBook M1/M2 laptops. Providing a remarkable video experience with support for up to Quad 4K @ 60Hz, plug-and-play support for dual displays, and the ability to select between HDMI® and DP++ connections (6 video ports for up to 4 external displays), the SD4790P USB-C® and USB-A 10Gbps Quad 4K Hybrid Dock offers flexible display options without the need for adapters or dongles. Supporting up to 10Gbps data transfer speeds via 6 USB ports and up to 100W of Power Delivery, the SD4790P USB-C® and USB-A 10Gbps Quad 4K Hybrid Dock satisfies the video, data, and power needs of most workstation setups.
*USB-A devices require optional power splitter (K38310WW) for Power Delivery.

Features

- Supports up to four external monitors for USB-C® devices and up to three external monitors for M1/M2 MacBook devices.

- Supports Thunderbolt™ 4, USB4®, USB-C®, and legacy USB-A laptops running Windows, macOS, or Chrome OS.

- Supports up to 100W Power Delivery and continues to charge connected accessories even when host laptop is not connected.

- Includes 6 USB ports that deliver speeds up to 10Gbps (2 USB-C® ports and 4 USB-A ports), a Gigabit Ethernet port, and a combo audio jack.

- Host cable is equipped with screw lock connector for a consistent and reliable connection between the dock and the laptop.

- Supports Zero-Footprint Mounting and includes Kensington Security Cable Lock Slots.

- Includes 3-year limited warranty and Kensington DockWorks™ Software.

- The plastic material in the SD4790P is composed of 73% post-consumer recycled content (PCR) to support sustainability efforts.
