

HyperX Pulsefire Core - Gaming Mouse (Black) (4P4F8AA)

Overview

Solid gaming-grade optical mouse with customizable RGB lighting

The HyperX Pulsefire Core™ delivers the essentials for gamers looking for a solid, comfortable, wired RGB gaming mouse. The Pixart 3327 optical sensor gives players precise, smooth tracking with no hardware acceleration, and has native DPI settings up to 6200 DPI. The ergonomically-designed Pulsefire Core has textured side grips for a comfortable, no-slip grip, and its symmetrical shape is suitable for both palm and claw grip. It features high-quality switches with crisp tactile feedback rated for up to 20 million clicks. Customize lighting, DPI settings, and macros for 7 programmable buttons with HyperX NGENUITY software and set your mouse up just the way you want it. The large skates on Pulsefire Core help deliver accurate aiming by giving you a smooth, controlled glide as you move the mouse.

Pixart 3327 optical sensor

The solid Pixart 3327 sensor provides precise tracking without hardware acceleration and supports native DPI settings up to 6200.

Easy customization with HyperX NGENUITY software

Create macros, customize RGB lighting and DPI and save it to the Pulsefire Core's onboard memory.

Seven programmable buttons

Pulsefire Core features seven programmable buttons with switches that provide crisp tactile feedback and are rated for 20 million clicks.

Customizable RGB lighting

Add a personalized touch of RGB style to your setup.
