WorkForce Pro
WF-C8690DTWFC

Keep costs low and productivity high with this highly reliable A3 business inkjet MFD with a fast FPOT for small to medium workgroups.

Deliver results for your business while keeping your electricity bills to a minimum, reducing environmental impact and improving CSR reputation. Not only delivering everyday A4 documents quickly, it also opens up a range of uses for A3 documents, such as in-house leaflets, brochure drafts for proofreading, Excel spreadsheets, construction site plans, worksheets for classrooms, booklets and much more.

Save money
Designed for workgroups, your business can avoid the hidden employee productivity costs associated with centralised printing. Further lower costs by changing consumables less with its innovative ink supply system, helping to deliver a competitive TCO. Its low energy usage can reduce energy bills, and its simple but effective inkjet mechanism requires fewer replacement parts.

High productivity and low intervention
Don't wait for prints with no warm up time and a fast First Page Out Time (FPOT) of 5.5 seconds. Print up to 11,500 pages in monochrome and 8,000 in colour without changing supplies with large ink cartridges[1]. Print on a wide range of media including recycled paper, glossy media, envelopes and labels.

Reduce your impact
Benefit from low-power consumption due to the no-heat technology of inkjet printing, along with no ozone emissions. Also, fewer replacement parts are needed, such as fusers, drums, developers etc, unlike a laser.

Built for business
A range of software and tools provide secure print options, efficient scanning and help manage devices remotely. NFC and wireless connectivity also supports printing from mobile devices. And with its smartphone inspired user interface and touchscreen, it's intuitive to operate. Epson Open Platform and our work with ISVs add extra solutions, such as PaperCut print management software.
