

VSD220

Smart way to computing

Your all-in-one android solution for the next generation of touch computing

Overview

Embrace the next generation of cloud computing with the ViewSonic VSD220 multi-touch Android All-in-one desktop PC. Seamlessly synchronize your email accounts, calendar and contacts using the pre-installed Google applications and with the flick of a finger, customise your desktop with widgets and apps available for download from the Google Play store. *Add full stop with the VSD220 Android AIO PC, you can browse the web, connect with your social life, watch multimedia content, play video games and virtually anything else you might do with a more expensive, complex old generation conventional computer. The VSD220 also expands your productivity offering a perfect solution to check your email quickly, edit documents and make it even more flexible by downloading many of the business applications available in Google Play store making it a truly viable alternative to a conventional computer, all within a very low power consumption, space saving and versatile design.

Dual-core processing powered by Texas instruments.

Powered by a 1.2GHz dual-core Texas instrument processor, the VSD220 can deliver not only performance for your daily tasks but also multi-tasking capabilities, allowing you to quickly switch from your current task to another without losing any data.

Productivity with a flick of a finger.

The VSD220 features a screen with multi-touch capabilities, allowing you to open, edit, and zoom your documents without needing any additional peripherals. You can also use the touch capabilities for entertainment while browsing the web or playing games making your experience even more natural, simple and enjoyable.

Synchronise your life

Google's GMS compliance included with the VSD220 means that all of their Apps are available, the same ones that are on your Android Smart phone and Tablet, negating the need to learn how to use them and the operating system because you already know. Further, your Emails, Address book/Contacts, Calendar, Tasks, Google+ and even your files on Google Drive are all synchronised along with your Google account and if you use Chrome browser on any device then your Favourites will also be synchronised. The VSD220 is a perfect accompaniment for your other Android devices... and more.

Wide Range of connectivity

Featuring a wide Range of connectivity, the VSD220 can be used as an external monitor and be connected to a laptop, Blu-ray, PS3, or any other HDMI enabled device taking advantage of the VSD220 1080p HD resolution. Connecting the microUSB port to a PC with Windows 7 or 8 along with the HDMI interface even allows use of the VSD220 touch capabilities with Windows. The VSD220 also comes with Ethernet Connection and a Micro SD memory slot to expand the internal memory up to 32GB. You can also add an external Keyboard or mouse and connect it to one of the multiple USB located on the side of the VSD220 or use the
