Features

Benefits

UHF/FM	Ultra-clear long distance reception.
Up to 28 Mile Range	Extended range capability provides up to 20 mile range. (Range will vary depending on terrain and conditions.)
2,662 Channel Combinations	Available when the 22 channels are combined with the 121 privacy codes (38 CTCSS/83 DCS), these combinations prevent interference from other radios.
10 NOAA Weather Channels	Be prepared for storms and emergencies with the built-in NOAA radio receiver providing coverage of all government operated weather channels.
NOAA Weather Alert	In the event of a major storm or other weather condition, NOAA broadcasts a 1050 Hz tone that this microTALK® radio can detect and warn you of a weather alert condition. The radio will emit a tone when weather alert signals are received and will automatically switch to the broadcasting weather channel.
Water Proof	Helps keep out moisture.
Rubberized Grips	For more assured handling.
Built-in LED Flashlight	Handy illumination located on the bottom of the radio cabinet.
VOX	The user's voice is detected and the radio transmits without the need to press any buttons, freeing hands for other tasks. Five VOX sensitivity levels allow the user to select at which point the radio will detect their voice.
Patented VibrAlert®	Enhanced vibrating feedback to notify you of incoming transmissions.
Battery Saver Circuitry	A unique circuit extends the life of the batteries. If there are no transmissions within 10 seconds, the unit will automatically switch to battery saver mode.
Scan Feature	Allows the user to scan either channels or privacy codes within a channel to locate conversations in progress.
Key Lock	When activated, provides key pad security eliminating accidental channel changes.
10 Call Tones	Allows the user to differentiate between up to 10 different parties on incoming calls.
Roger Beep Tone	Confirmation tone indicates the completion of the user's transmission, and signals to others it is clear to talk.
Auto Squelch	Automatically shuts off weak transmissions or unwanted noise due to terrain or range constraints.
Maximum Range Extender	Overrides Auto Squelch to provide extended range reception.
Speaker/Microphone/Charger Jack	Allows use of USB wall charger, or earphone speaker/microphones (not included) for "hands-free" operation.
Keystroke Tone Signal	Confirms key activation.
Belt Clip	Secures your microTALK® radio while on the go.
1 Year Warranty	On radios sold in the U.S.A.
6 AA NiMH Rechargeable Batteries	Radios can also be used with 3 AA alkaline batteries per radio (not included).
