KMW-375GR

Precise performance with compact portability

Cut down on the weight and bulk and enjoy all the advantages the KMW-375 wireless mouse has to offer. It features a sleek and contemporary design, and it conveniently folds flat to slide it into a small pocket without noticing it is even there. By adopting the latest 2.4 GHz RF wireless technology, you will enjoy reliable connectivity with virtually no lag or interference. This elegantly designed mouse comes with a USB receiver that can be safely stored in the bottom of the mouse or left connected to your laptop when travelling. Providing a precise and fast performance this mouse will be the perfect fit for your hand and active lifestyle.

Highlights

- Three button wireless mouse with an ultra ergonomic and curved design, which flattens conveniently for easy storage and portability
- It features a smooth surface, for an enhanced feel and convenient adjustment
- Comes ready to plug and play through its USB connection
- 1000 DPI resolution
- Compatible with Windows, Linux and MacOs operating systems
