

EPSON TM-T88V-i — EPSON TM-T70-i INTELLIGENT PRINTERS

The new Epson TM-T88V-i and Epson TM-T70-i combine Epson's world renowned TM receipt printers and the new Epson TM-Intelligent solution together. This series has been developed to serve XML and web application printing.

Mobility is one of the key words we frequently come across in the retail and hospitality IT environment. The recent expansion of mobile devices and tablet PCs and the recognition for robust and reliable devices, have been influencing IT, store and restaurant managers to consider using these devices for order entry or in POS systems.

TM-T88V-i and TM-T70-i have been developed to reduce the complexity and bring straight-forward solutions to XML printing using mobile devices and tablets. Receipts and other necessary information are printed through web applications using XML.

Epson has developed a new solution, ePOS-Print, which enables direct printing from web applications without changing the printer settings and no print driver is required. PC free functionality is made easy through TMNet WebConfig, all in a completely platform independent environment. The Epson TM-T88V-i and Epson TM-T70-i can also control additional Epson TM printers* (e.g. for applications like order entry or kitchen printer) and cash drawers.

KEY FEATURES

- Direct communication with web browsers
- Built-in intelligence for compatibility with web applications
- ePOS-Print: understand the XML command requirements from the web applications
- Easy configuration: TMNet WebConfig allows smooth configuration of the printers to print via tablet PCs
- Easy maintenance: No PC required to control the printers

* To be controlled by Epson TM-T88V-i or Epson TM-T70-i, the TM printer needs a wired or wireless UIB interface.

A new dimension in business systems

Direct communication with web browsers

TM-T88V-i and TM-T70-i can communicate directly with web browsers. They work with all major web browsers which support HTML 5 (such as Internet Explorer 9.0, Firefox 3.5.9, Google Chrome 7.0, Safari 5.0, and Android standard browser 2.2).

ePOS-Print

Enable the TM-T88V-i and TM-T70-i to understand the XML command from the web application.

Peripheral control

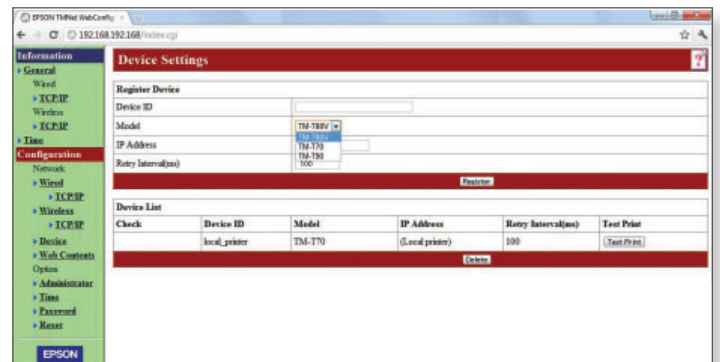

The TM-T88V-i and TM-T70-i can control additional Epson TM printers (e.g. for applications like order entry or kitchen printer) and cash drawers.

Easy configuration

TM-T88V-i and TM-T70-i come with the TMNet WebConfig, which allows smooth and easy configuration. No print driver is required, allowing high productivity for the store or restaurant.

Easy maintenance

No PC is required to operate the TM-T88V-i and TM-T70-i.

With the Epson TMNet WebConfig tool, the printers are easily set-up.

SPECIFICATION

MTBF	180,000 hours
Type	Direct thermal receipt printers with embedded intelligence
Interfaces	USB, LAN (wired or wireless)
Additional devices controlled by TM-i	Epson TM Printers with wired or wireless interface, cash drawer
