**Sorona material reduces greenhouse emissions by 63%!**

**Easy Access Accessory Pockets & Custom Workstation**

**Cool-Mesh Back Panel and Padded Shoulder Straps**

## Model#: MESFBP2.0   SRP: $99.99

The TSA has announced guidelines that allow travelers with properly designed carrying cases to pass through security checkpoints without removing their laptops. Mobile Edge has responded by creating the ScanFast Collection, each case is uniquely designed to provide an unobstructed security scan of the computer.  If you're traveling with your laptop, let Mobile Edge make your trip through the airport faster and easier with the ScanFast Laptop Cases!

The new ScanFast 2.0 collection is made using DuPont Sorona, a material produced partially with Agricultural Feedstocks (corn).  This requires 30% less energy than Petrochemical products and reduces greenhouse emissions by 63%. This makes the ScanFast line of cases not only smart for travel, but smart for the environment as well!

## Features
