Part Code: **HYP-USBCPD-L2**

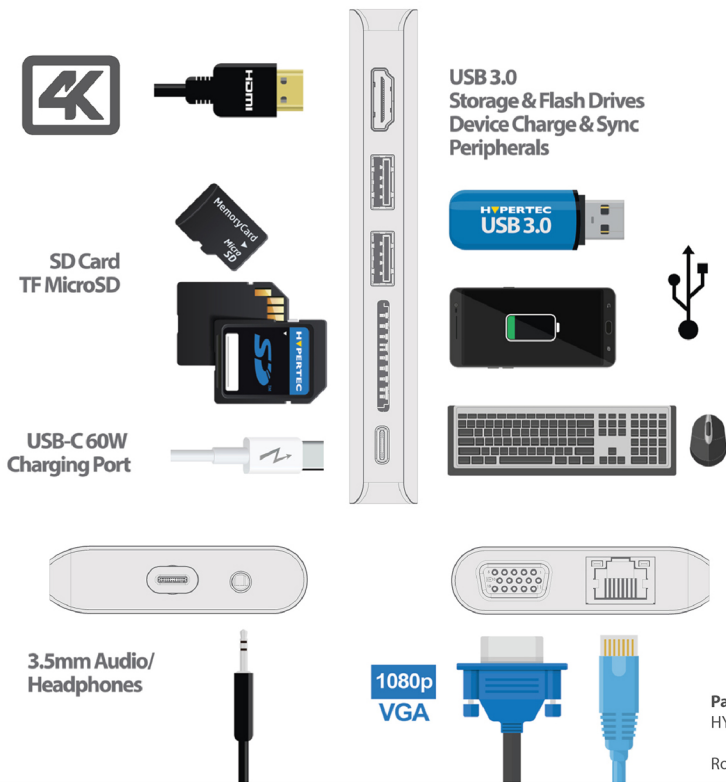

Turn your USB-C Laptop into the Ultimate Hub

The ProDockLite® Dock from Hypertec enables mobile workers with USB-C Laptops, Tablets or Ultrabooks to connect to a variety of peripherals in the office or at home. Taking full advantage of the latest USB 3.1 Specification, the ProDockLite is capable of delivering high quality video, fast file transfer speeds and 100W power delivery from a single Type-C connection.

Empower your workflow, wherever you are

The ProDockLite® also features a USB 3.1 Type C female port that allows users to power their USB-C Laptop or Ultrabook while connected. With an ultra-portable design, the ProDockLite® is ideal for hot desk applications and mobile work environments.

Additional Technical Information

USB

100W power delivery Type- C Port supports 20V 3A power charging for your USB-C Device.
2x USB 3.0 ports support up to 5Gbps data transfer and other standard USB devices (Keyboards/ Mice/ USB Flash/ Hard Disks/ etc).
