

NUC7i5DNKE - Dual-Core i5 vPro Thin Chassis

Who said small isn't powerful?

The Simply NUC7i5DNKE is the latest Dual-Core i5 vPro processor in the familiar 4" x 4" x 1.5" sized package, is able to run multiple applications and drive multiple 4K displays simultaneously. The slim chassis design can easily mount behind your monitor or be unobtrusively located in plain sight due to its small size. The active cooling system adjusts as needed to provide quiet during light loads where it isn't needed as much, and barely audible cooling when more is needed

Built for Business

The Simply NUC7i5DNKE is built with the 7th generation Intel® Core™ i5 vPro processor to give you the performance to handle anything you throw at it.

The Simply NUC7i5DNKE is designed for 24/7 operation and is perfect for refreshing enterprise PCs, Digital Signage, POS terminals, and other continuous use applications. With the remote management features found in vPro processors, paired with AMT Ethernet devices, you can remotely access and control the hardware outside of the operating system.

Extended Life and Extended use

The Simply NUC7i5DNKE has a 3-year product life for you to design into your application and be able to purchase for years to come. These systems can also run Microsoft Server 2016, VMWare and various Linux Server Distros, making them perfect small, but very powerful, servers.

They are just as comfortable running Windows 10 Pro as part of a corporate environment as they are at running specific demanding applications. For these reasons, many large companies are choosing to standardize on this one piece of hardware for their many different product lines.

Cut the cords, not the Performance

The Simply NUC7i5DNKE comes with Intel® 802.11ac wireless, called Gigabit wireless, for connectivity right out-of-the-box. This makes it simple to immediately access files in the cloud, and with built-in Bluetooth 4.2, you can connect wireless peripherals like headsets and keyboards and the 7.1 surround sound helps to deeply immerse you in your content.

Highlighted features

- 7th Gen Intel® Core™ i5 vPro
- Intel® HD Graphics 620
- 4GB DDR4 (32GB Max)
- 128GB M.2 SSD (2TB Max)
- Dual HDMI 2.0 supporting 4K @ 60Hz
- Intel® Gigabit LAN with AMT Support
- Intel® Dual Band (Gb) Wireless
- Intel® Bluetooth 4.2
- Four USB 3.0 ports
- Digital Audio 7.1 Surround Sound
- Internal Dual-Band Antennas
- Front panel power button
- 19V DC Jack (12-24v operation)
- VESA Mount Kit

Customization

- Two DDR4 SO-DIMM Sockets
- M.2 slot supports PCI or SATA SSDs
- Two USB 2.0 and one USB 3.0 internal headers for functional Lid support
- Consumer Electronics Control (CEC) internal header for 2nd HDMI port

Simply NUC Services

You can order this NUC in your various configurations, as well as your corporate OS Image loaded and ready to deploy.
