

Schneider OffGrid Portable Solar Panel 100/200

SAVE THESE INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTION - This Safety Guide contains important instructions that should be followed during installation and maintenance of the Schneider Electric equipment and batteries.

It is intended for Schneider Electric customers who setup, install, relocate, or maintain Schneider Electric equipment. Refer to the product user manual for more information.

Read, understand, and follow ALL safety instructions contained in this guide.

Failure to follow safety instructions and warnings could result in equipment damage, serious injury, or death.

Changes and modifications to this unit not expressly approved by Schneider Electric IT Corporation could void the warranty.

General Safety Information

- Read all the instructions in the manual before operation.
- Do not permanently install the solar panels outdoors.
- Changes and modifications to this unit not expressly approved by Schneider Electric could void the warranty.
- Use only recommended Schneider Electric accessories and cables.
- Do not use solar panel for recharging products not recommended by Schneider Electric.
- Do not let the solar panels wet. If the panel is wet, allow it to thoroughly dry before folding and storing it to avoid damage.
- Do not expose the solar panels to rain or snow.
- Do not operate the solar panels in contact with fluids, or where there is excessive dust or humidity.
- Do not use the solar panel if the panel or plug is found to be damaged.
- Do not disassemble, repair, or modify the solar panel.
- Do not insert any metal object or scratch the solar panel with sharp objects.
- During recharging, keep Schneider OffGrid away from heat and direct sunlight to extend the life span.

Deenergizing Safety

- Do not handle any metallic connector before power has been disconnected.
- Do not touch the metallic connector of the cable immediately after using for charging the Schneider OffGrid. Allow sufficient time for the metal parts of the connector to cool.

Solar Panels Safety

- Do not expose the Schneider OffGrid portable solar panel to excessive temperature or fire. Any such exposure to temperatures above 140 °F (60 °C) or fire may cause damage.
- Do not use the Schneider OffGrid portable solar panel in places where flammable gases or fumes are present.
- Do not use the Schneider OffGrid portable solar panel if the panels, or plug is found to be damaged.
- Do not disassemble, repair, or modify the Schneider OffGrid portable solar panel. Such acts may cause fire, injury, and unpredictable risks.
- The Schneider OffGrid portable solar panel has no serviceable parts.
- CAUTION: Risk of Electric Shock
 - Do not remove cover, no user serviceable parts inside. Refer servicing to qualified service personnel.
 - To reduce risk of damage to the electric plug and cord, pull the plug rather than the cord when disconnecting the power pack.
 - Use of an attachment not recommended or sold by Schneider Electric may result in a risk of fire, electric shock, or injury to persons.
 - Do not use the Schneider OffGrid portable solar panel if it is damaged or modified.
