Overview

Keep your rackmounted equipment cool with the Rackmount Fan Tray. Four models are available. The vertical model (RM077-R2, RM077-220V-R2) includes three 75-CFM fans that can mount at 90-degree angles to enhance front-to-back airflow. The fan tray fits in any EIA 19" enclosure. The horizontal model (RM075-R2, RM075-220V-R2) also has three 75-CFM fans; however, it slides into a rack horizontally like a drawer, with the fans positioned laying flat. The RM075-R2 and RM077-R2 work with 110-VAC power sources. The RM075-220V-R2 and RM077-220V-R2 use 220-VAC power sources.
