Getting Started

Before starting to use the tablet, we would like to suggest you follow the illustrations below to begin to use the tablet.

Status LED

	Power ・ LED glows when the tablet is turned on. ・ LED flashes when the tablet goes to the sleep state. ・ LED goes off when the tablet is turned off.
	Wireless LAN (Wi-Fi) ・ LED glows when WLAN (WiFi) function is enabled. ・ LED goes off when this function is disabled.
	Battery Status ・ LED glows when the battery is being charged. ・ LED goes out when the battery is fully charged or when the AC/DC adapter is disconnected. ・ LED blinks slowly when battery capacity is under 7%. ・ LED blinks fast when battery error.

CAUTION!

● Please fully charge the battery before using it for the first time.

● To ensure the unit working properly, please keep all connectors away from the contaminants staying inside of them such as dust, grease, mud, and water. The negligence may cause the unit with no communication, short circuited, overheated and so on.

● If the connector is damaged, please ensure the connector is being fully repaired before using the unit to avoid causing short circuited.
