WorkForce Enterprise AM-C5000

With a compact design, this more sustainable MFP offers the perfect solution for all your business printing needs.

The WorkForce Enterprise AM-C5000 combines fast performance with low energy consumption. Made with the modern office in mind, the small footprint and modular design allow you to build your device to your exact requirements. And as if that wasn't enough, the innovative technology makes installation and maintenance easy and stress free.

Reliable and improved sustainability
With a simpler, shorter paper path, paper jams can be removed more easily, and the finisher connectivity is improved. This means that service downtimes can be reduced. Through fewer consumables and supplies, it also produces less waste. With low power consumption, the overall environmental impact of printing is cut dramatically.

Efficient maintenance
Fewer replacement parts keep user intervention to a minimum, making day-to-day maintenance fast and efficient.

Heat-Free Technology
Epson Heat-Free Precision Core Technology requires no heat to warm up when it is switched on or awoken from sleep, which significantly reduces energy consumption. This allows Epson's Heat-Free inkjets to deliver an exceptional fast FPOT compared to laser technology.

Advanced software solution compatibility
A variety of software solutions can be integrated into existing IT infrastructure to improve efficiency. This includes Epson Remote Services (ERS), which offers cloud-based device monitoring and management system that delivers advanced remote diagnostics for Epson business products.

KEY FEATURES

- **High reliability**
  Simple mechanism for environments where downtime is not an option
- **More sustainable**
  Lower power consumption saves energy thanks to Heat-Free technology
- **Small footprint**
  Amongst the lowest footprint in its class
- **Reduced downtime**
  Simpler, shorter paper path for easier paper jam removal
- **Solution compatibility**
  A wide variety of integrated software solutions
