Constructed to the same specification as rolling tool cases, from durable 600D ballistic weave material with high-rigidity internal core, heavy duty zippers and nylon straps and nickel plated ventilator eyelets.

Side handles – to assist lifting in and out of a vehicle for example.

Two combination padlocks are supplied to secure the main device storage compartment and front electrical compartment separately.

External pockets for quick access to power lead to enable fast set up.

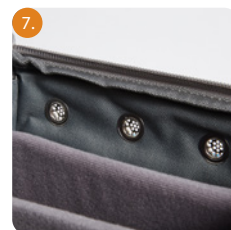

Devices are stored in felt-lined device compartment between adjustable dividers. Vertical dividers, manufactured with a strong plastic core and padded with soft felt material to protect equipment. Removable dividers can be adjusted to suit the equipment inside or completely removed for open storage charging.

Riveted portholes feed cables from separate power compartment to main device storage compartment.

Integrated wheels and handles – more robust than previous version with wheels on wider pitch for greater stability.

Well placed perimeter air vents allow ventilation, so no fan is required and devices charge in silence.

Built-in anchor point with supplied steel cable and combination lock allows the bag to be locked down in any location.

Flexible cable management pockets in front power compartment easily store AC adaptors and excess cable to keep everything organized.

Simultaneous charging of all 8 devices to ensure devices are fully charged as fast as possible.
