Hands-free productivity

Everyone in the office could use more flexibility. They can roam confidently 400 ft / 120 m from the headset base with up to 12 hours of talk time. And collaboration is simple, since teams can conference up to four headsets on a single base.

Easy integration

Savi 7200 wireless headsets offer instant integration with over 800 analog and IP desk phones from industry leading makers - including a wide range of phones that Poly offers.

DECT™ Adaptive Power

Optimize range, save power, and maximize office space with the DECT™ adaptive power system. It automatically adjusts wireless signal strength based on distance from the headset base.

Roam farther

Give workers more flexibility and hands-free productivity with a roaming range of up to 120 m / 400 ft from the headset base.

12 hours talk time

Build more confidence into every call with up to 12 hours of talk time with each charge.

Training made easy

Collaboration is easier with conferencing of up to 4 headsets on one base.

Charge indicator

Provide the peace of mind that comes from knowing headsets are always fully charged with the headset docking charge indicator.

Technical Specifications Footnotes

¹ SoundGuard Digital Plantronics owns sophisticated algorithms including: Protects against Acoustic Shock by limiting sounds to below 118 dBA; G616 anti-startle protection that limits the noise level to below 102 dB SPL and is therefore compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; Average daily noise exposure measures and controls sound to prevent the average daily sounds exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). ² Requires Poly Lens Desktop App to enable SoundGuard Digital features.
