

5-Outlet Power Strip - German Type F Schuko Outlets, 220-250V, 16A, 1.5 m Cord, Schuko Plug, White

MODEL NUMBER: **PS5G15**

5-outlet power strip distributes electricity to home and office electronics, including computers, power tools and appliances.

Features

33 cm Power Strip Delivers Electricity to 5 Devices at the Same Time

Compatible with standard electrical equipment, this Protect It!® power strip features five Type F Schuko outlets and a durable white plastic housing. It is ideal for powering almost anything with a compatible plug, including computers and mobile devices to appliances and power tools.

Designed to Give You Flexibility in Placing the Power Strip Where It's Most Needed

The power strip features a space-saving right-angle Schuko plug that helps you connect to a wall outlet located behind furniture that is placed flush against the wall. The plug is attached to a 1.5-meter power cord, which gives you more choices in placing the power strip away from the connected AC outlet.

Premium Safety Features Designed for Protecting Your Valuable Equipment

The PS5G15 features a lighted on/off switch that provides one-touch control over all connected devices. In the event of an overload, a 16-amp circuit breaker immediately shuts down the power strip to prevent equipment damage. The high-impact plastic housing is designed for the rigors of everyday use.

Highlights

- 5 Schuko outlets distribute power to appliances, tools, lighting and other electronics
- Right-angle Schuko plug permits connection in confined or hard-to-reach spaces
- 33 cm plastic housing designed to withstand the rigors of everyday use
- On/off switch gives you convenient one-touch control over all connected devices
- 16A circuit breaker shuts down all outlets for safety in case of overload

Applications

- Distribute power to computer equipment and other devices in an office, workbench, retail or telecom environment

Package Includes

- PS5G15 5-Outlet Power Strip, German Type F Schuko Outlets, White
