

4XEM 10-in-1 Multi Port USB 3.0 Power Hub

4XEM Part- 4XCM064

Introducing the 4XEM 10-in-1 Multi Port USB 3.0 Power Hub – your ultimate solution for high-speed connectivity and power. Engineered to meet the DC and PD standards and powered by the GL3510 chipset, this hub provides a seamless experience for professionals and tech enthusiasts alike. Equipped with a removable USB Type-C host connector, this versatile hub features eight USB 3.0 Type-A ports and two USB 3.1 Gen 1 Type-C ports, each delivering data transfer rates of up to 5 Gbps with 5V 1.5A power for fast, reliable charging.

Designed for OS-independent compatibility, the hub allows you to expand your device's connectivity with minimal effort. It operates on a DC power source with a 20V 3A input, delivering stable 5V output to keep your devices powered and ready.

Additional convenience features include an independent ON/OFF key switch for each port, enabling easy control over device connections. With a compact design and a removable cable, it's perfect for both desk setups and travel. Backed by a 1-year warranty, the 4XEM 10-in-1 Multi Port USB Hub is built to enhance productivity and connectivity in any environment.
