Meet Microsoft Surface Go 3

Full-access flexibility for
your federal agency

TAA COMPLIANT

Your frontline workers are your eyes and ears in the field, and they need flexibility to show you their point of view. Whether checking off tasks, handwriting notes on screen, capturing photos in Tablet mode, typing field reports in Laptop mode, or doing a video consult in Microsoft Teams,* Surface Go 3 helps your workers get the job done.

Designed for work on the go

Speed through tablet-and-digital pen tasks with touch and Surface Pen.* Tune in to virtual meetings and how-to videos with the 10.5" PixelSense™ Display. **Surface Go 3** is compact and delivers all-day battery life[2] for work on the go.

Your connection to customers

Surface Go 3 enables you to keep lines of communication open with a faster processor, stable connectivity with optional, secure LTE Advanced[1], fast Wi-Fi 6, and seamless interactions with essential Microsoft 365 apps.*

Work more securely, on your terms

Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, **Surface Enterprise Management Mode (SEMM)** provides a scalable deployable utility to meet this need. Administrators can selectively choose to enable or disable hardware-based components, in addition to boot options, on a per-device basis—all secured via PKI.

Equipped for government use

Protect your device with the **Kensington BlackBelt Rugged Case*** with Integrated CAC Reader, and military-grade drop protection or the **IOGEAR Smart Card Reader Hub for Surface***. These FIPS 201–compliant smart card readers provide a highly secure connection to your network.

Warranty support you can trust

Work without worries, knowing you can receive quick and reliable support through Microsoft's service partnership with ITG. Choose **3-year, 4-year, or 5-year onsite warranties w/Keep Your Hard Drive**, receive support by the next business day, and remain in full compliance with regulations.
