# 1. Before You Start

---

## Package Contents

- TV-IP313PI
- Torx Security Allen Key
- Quick Installation Guide
- Weather Seal

## Minimum Requirements

- A computer with an Ethernet port and web browser
- PoE network
- Network cable

## Free Mobile App: TRENDnet IPView Requirements

Supported Operating Systems
Android (version 4.4 or above) iOS (version 8.2 or above)

## Using a PoE switch (TPE-S50)

### Note:

- Connect the TV-IP313PI to your network using an existing 802.3af/at compliant PoE switch or injector.
- For outdoor installation, please configure weather seal (included) per the diagram below, you will have to terminate the RJ-45 connector after the weather seal has been applied.

## 2. Hardware Installation and Configuration

1. Do not install or mount the IP camera until after you complete the installation steps below. Temporarily place the IP camera next to your computer.
2. Download the utility at <http://www.trendnet.com/camerautility>
3. Extract the file, install and run the camera utility.

**Note:** Please see user's guide for Mac installation.

4. Run the utility and find the inactive camera under the security column. Double click on the IP address to open the web browser management interface.

**Note:**

Internet Explorer or Google Chrome web browser is required for installation.

5. Once you get to the login page you will be prompted to change the password. Please follow the password requirements and enter your new password.

6. Now you can access the camera's configuration page for Live view and additional settings. For more details, please refer to the User's Guide from our website.

7. Scan the QR code below to download a free mobile app to view the camera from your iOS or Android device.

Android

## Mounting the camera

1. Place the provided template label on the wall or ceiling.

2. Drill holes at each marked position on the template. Make sure the drill bit matches the size of the holes on the template.
3. Insert the screw anchors into the holes, and align the mounting base over them. Then use the provided screws to secure the camera to the mounting surface.

3A. Manually adjust your camera to the desired viewing position.
