SIGNAGELIVE DIGITAL SIGNAGE SOFTWARE

Simply NUC® + **signagelive**
cloud based digital signage platform

Simply NUC has partnered with Signagelive to develope a range of 'Plug and Play' Signagelive Digital Signage Appliances that are built to work straight out of the box. No software installation, no mouse and keyboard, just power and Internet and you are good to go.

SIGNAGELIVE – ONE PLATFORM, ENDLESS CAPABILITIES

Upload, your media, create playlists, publish full-screen or multi-zone layouts to your Signagelive Digital Signage Appliance with ease. Signagelive has been developed over 20 years to provide our customers with a comprehensive solution to meet their digital signage needs.

THE SIGNAGELIVE MARKETPLACE – APPS AND INTEGRATIONS FOR SIGNAGELIVE

Explore the hundreds of apps, templates and integrations available in the Signagelive Marketplace. We are continually adding new free apps and premium third-party integrations to ensure you have everything to customise Signagelive to your exact requirements.

MANAGE & MONITOR YOUR NETWORK OF DIGITAL SIGNAGE

For those responsible for managing a digital signage network and the Digital Signage Appliances deployed in a single location through to a global network, we provide a comprehensive solution. Our dashboards, reports and tools allow each Digital Signage Appliance to be easily configured and monitored.

SUPPORTING YOU EVERY STEP OF THE WAY

Every Signagelive customer receives our Standard support plan included for free. If you require a more comprehensive level of support, we provide Premium, Enterprise and Custom support plans tailored to your exact requirements.
