

MAINSTREAM COMPUTING FOR A VARIETY OF BUSINESS USES

ThinkCentre Tiny-In-One devices enable businesses to upgrade displays and computers separately, but still enjoy the space-saving benefits of an all-in-one device.

ThinkCentre M60q Chromebox

Smarter
technology
for all

Lenovo

This is a new generation of Chromebook desktops, powered by Intel Celeron or up to 12th generation i5 processor. Powerful, affordable, and lightweight, this mini PC use Chrome OS that is easy to use, and simplifies everyday workflow, leading to improved productivity. Storage is optimum – with the data and apps being hosted in the Cloud. Plus, it comes with two slots for M.2 SSDs inside, with up to 64 GB storage capacity.

REASONS TO BUY

With ample ports available, it's an efficient multi-tasking work device. Connect up to 4 independent displays – thanks to the dual USB 3.1 Gen 2 ports on the front, as well as four USB 3.2 Gen 1 and HDMI-out 2.1 TMDS ports on the back.

Data is safe and secure in the cloud with automated security updates integrated into the browser. Use the Kensington security slot to physically lock the device when not working.

Cloud applications and security solutions require minimal or no manual intervention most of the time, rendering professionals time to optimize their productivity.
