

Signature Slim Solar+ is always ready. This sleek, durable wireless keyboard draws power from solar and artificial light for cable-free, hassle free typing. Automate repetitive tasks with one keystroke using the Action Key customizable via Logi Options+ App (2) (6), and switch between up to three devices.

WHAT'S IN THE BOX

- Signature Slim Solar+ Wireless Keyboard
- User documentation

FEATURES

- Always powered – A full size wireless keyboard with instant and uninterrupted typing under any light source - solar or artificial (1) - even on a dark or rainy day
- Powered by Logi LightCharge – A charging innovation that combines a light-absorbing strip and a durable energy-efficient battery built on our Signature Slim Solar+ keyboard
- No cables, Ever - Never worry about recharge cables or running low on battery power; works out of the box with zero hassle for instant productivity
- Better for longer – A wireless Bluetooth keyboard designed to last up to 10 million keystrokes and with a durable battery functional for up to a decade (9) (10)
- Upgrade your space - A sleek and solidly built full-size keyboard with familiar laptop-style typing, made with recycled plastic (4)
- Smart Actions for work & life - Time-saving and ready-to-use shortcuts to automate repetitive tasks with one keystroke using the Logi Options+ App (2) (6)
- Seamlessly switch typing between PC, smartphone & tablet with a tap; pair it with a Logitech multi-device mouse for effortless typing and clicking across computers (2) (6)
- Works on nearly any platform - Worry-free wireless connection to Windows, macOS, Chrome OS, Linux, iPadOS, iOS and Android OS, easily pair via Bluetooth

Toolkit:

- 1) Requires at least 200 lux illuminance
- 2) Customizing the device requires the Logi Options+ App, available for recent versions of Windows and macOS at logi.com/optionsplus
- 3) Logi Options+ App needs to be installed on all your computers and connected to the same network.
- 4) Signature Slim Solar+ Keyboard K980 off white recycled plastic content: minimum 52%. Excludes plastic in printed wiring assembly (PWA), and packaging. Signature Slim Solar+ Keyboard K980 graphite recycled plastic content: minimum 70%. Excludes plastic in printed wiring assembly (PWA), and packaging.
- 5) Wireless range may vary depending on the operating environment and computer setup
- 6) Logi Options+ App is currently not supported for ChromeOS, Linux, iPadOS, iOS and Android OS. The device's basic functions will work without it.
- 7) With a fully charged battery, battery life varies with use conditions.
- 8) Mouse not supported by iOS.
- 9) Actual key switch lifetime varies with use conditions. Projection is based on one million keystrokes per key switch in a year.
- 10) Lifetime projections are based on results from an 18 months testing conducted by the battery manufacturer. Actual Battery lifetime may vary based on user, environment and computing conditions.
- 11) Spare parts may not be available in some countries or regions. For more information, please visit www.logitech.com/support/slimsolarplus
- 12) Light effects on strip not representative of product operation
- 13) Out of the box, the AI launch key opens Microsoft Copilot in Windows or Gemini for ChromeOS if available on your device. Use of these or other AI tools may require a separate subscription/application and minimum operating system requirements. For more details, please visit www.logitech.com/support/slimsolarplus

Detailed footnotes for China:

- 1) Battery life is based on a fully charged battery status and an estimated usage of an aggregated two millions keystrokes on the keyboard in a year.

Detailed Notes for Japan:

- 1) Keyboard supported by iPadOS 16 or later and iOS 16 or later.
