EPOS Enterprise Catalog

Industry Wide Audio Solutions

EPOS designs and manufactures high-end audio solutions for business professionals around the world.

At EPOS, we empower businesses to connect anytime, anywhere, on any device with advanced, reliable, and user-friendly audio technologies.

In the modern hybrid work environment, having reliable, high-quality audio solutions is crucial for effective communication and collaboration.

EPOS provides a variety of audio devices that ensure rich, clear sound on both ends of the conversation, enabling professionals to focus and communicate confidently in any setting. Whether you're in the office, working from home, or on the go, EPOS solutions help you adapt to changing work environments with ease and achieve the best results.

Find more information at eposaudio.com

Stay Focused with EPOS BrainAdapt™

EPOS BrainAdapt™ is EPOS' philosophy and practice of designing headsets with audio for the brain, not just the ears. When audio is poor, the brain must work harder to separate speech from noise.

-  Improved Concentration
-  Clearer Conversations
-  Better Memory Recall

A unique approach of designing products and audio experiences that reduce cognitive load by supporting the brain's natural way of processing sound. An approach that heightens concentration and improves performance through the workday.

Unified Communications

Unlocking Seamless Connectivity
with Unified Communications

Are you looking for a way to streamline your business communications? Unified Communications (UC) offers the perfect solution. As businesses evolve, the consolidation of communication tools becomes increasingly vital. UC covers this necessity by integrating voice, text, and video-based communication into a cohesive platform.

The EPOS headsets for UC are crafted to seamlessly integrate with major UC platforms. They deliver the best sound quality for both the user and the listener, ensuring your message is always delivered with utmost clarity. Whether stationed in the office, attending meetings, on the go, or working remotely, EPOS stands ready with a diverse range of high-quality, wired and wireless headsets and speakerphones. These products enrich your UC experience and ensure uninterrupted connectivity.

Our partnerships

At EPOS, we pride ourselves on our strategic partnerships with leading global Unified Communications providers and contact center vendors. Through certifications and long-term collaborations, we deliver unprecedented end-to-end solutions that simply work. Experience the future of seamless connectivity with EPOS and Unified Communications.

IMPACT

When Talk Matters

Whatever your line of business, clear and seamless communication is essential for excellence. And in a world where 40 percent* of professionals spend long durations on the phone, and where noisy and open work environments are the norm, this proves even more important. It's for this reason that our products are designed and crafted with superior materials that filter out unwanted noise, clarify speech and are fully compatible with all your devices and systems. So you get perfect communication, every single time.

Wired Headsets

IMPACT wired portfolio

Wired headsets offer consistent and reliable audio quality without the need for batteries or charging. They are cost-effective, easy to setup, and ensure stable connection.

Ideal for: contact centers or offices with dedicated workstations, where employees do not need to move around frequently, ensuring constant high-quality communication without worrying about battery life or signal interference.

See more at eposaudio.com

IMPACT 800 Series

On-ear wired headset with adaptive ANC and industry-leading voice pick-up

Designed for the next generation of desk workers in the New Open Office

Key Benefits

- ✓ Get your message across thanks to industry-leading voice pickup powered by EPOS AI™
- ✓ Protect your brain with hybrid adaptive ANC that effectively shuts down noise
- ✓ Enjoy a superior open office headset with super wideband and stereo sound
- ✓ Stay comfortable with a lightweight design, soft cushions, and headband padding
- ✓ Experience true ease of use with smart features and plug-and-play connectivity

See more at eposaudio.com/impact-800

IMPACT 700 Series

On-ear wired headset with inline control for outstanding customer experience

Designed for contact center professionals with industry-leading voice pickup

Key Benefits

- ✓ Enjoy exceptional call clarity with three beamforming mics powered by EPOS AI™
- ✓ Stay comfortable throughout the day with lightweight design and soft earpads
- ✓ Effortlessly manage calls with an intuitive and ergonomic inline controller
- ✓ Focus on the customer with passive noise dampening and incoming speech clarity
- ✓ Get peace of mind with a product engineered to withstand heavy use

See more at eposaudio.com/impact-700

IMPACT 400 Series

On-ear wired headset to make yourself heard and keep your concentration in any work environment

Designed for hybrid workers that seeks a headset that delivers unmatched value for money

Key Benefits

- ✓ EPOS hybrid ANC delivers the right balance of noise reduction, ensuring quiet focus without pressure
- ✓ Voice pick-up powered by AI effectively cancels voices around you, so you can take calls with confidence
- ✓ Certified for Microsoft Teams Open Office to deliver exceptional clarity and reliable performance
- ✓ Plug-and-play connectivity and intuitive features like lift-to-mute enhance your workflow
- ✓ A light design, soft noise-dampening ear pads, and padded headband let you stay in the flow

True wireless earbud for the professional and personal you

Enjoy seamless communication, unmatched comfort and exceptional sound all day

Key Benefits

- ✓ EPOS IntelligentFit™ ensures comfort and superior acoustic performance.
- ✓ UC certifications, multi-point connectivity and device management boosts productivity.
- ✓ Enjoy rich, detailed sound that brings your music to life.
- ✓ Hybrid ANC, semi-open acoustics, and EPOS advanced algorithms make concentration and conversations more natural.
- ✓ Power through your day with an impressive 50-hour battery life and wireless case charging whenever you need it.

See more at eposaudio.com/adapt-e1

ADAPT 600 Series

Over-ear, Bluetooth® headset for maximum concentration

Powered by EPOS AI™ and built on EPOS BrainAdapt™ technology, ensuring superb call clarity and the best audio for your brain

Key Benefits

- ✓ Adaptive hybrid ANC adjusts the noise reduction accordingly for optimal concentration
- ✓ Experience music with high-quality stereo sound and customizable sound profiles
- ✓ Certified with major UC providers and Microsoft Teams
- ✓ EPOS BrainAdapt™ technology is proven to reduce listening effort by 67%
- ✓ Over-ear, soft leatherette ear pads provide a gentle, comfortable fit

See more at eposaudio.com/adapt-600

ADAPT 500 Series

On-ear, Bluetooth® headset with discreet boom arm

Featuring a new headband and softer earpads for long-term wearing comfort

Key Benefits

- ✓ Get clear calls with two advanced mics and a boom arm to optimize voice pick-up
- ✓ Focus anywhere with hybrid ANC that reduces background noises
- ✓ Enjoy all-day wearing comfort with a low-impact headband
- ✓ Switch effortlessly between devices with multipoint connectivity
- ✓ Stay in touch with your surroundings with EPOS Voice™ technology

See more at eposaudio.com/adapt-500

ADAPT 300 Series

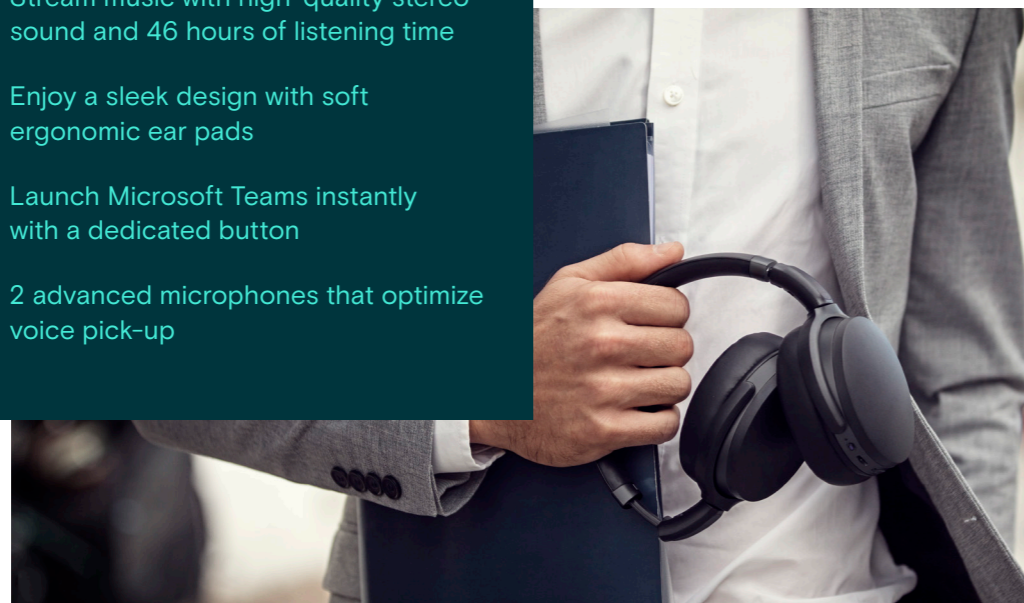

Over-ear, Bluetooth® headset to block out noise

Featuring ANC to reduce background noise and help you concentrate in busy offices or on-the-go

Key Benefits

- ✓ Switch effortlessly between devices with multipoint connectivity
- ✓ Stream music with high-quality stereo sound and 46 hours of listening time
- ✓ Enjoy a sleek design with soft ergonomic ear pads
- ✓ Launch Microsoft Teams instantly with a dedicated button
- ✓ 2 advanced microphones that optimize voice pick-up

See more at eposaudio.com/adapt-300

ADAPT 200 Series

On-ear, Bluetooth® headset with boom arm available in double sided variants

Take calls on-the-go with a lightweight, portable design

Key Benefits

- ✓ A noise-cancelling microphone filters out ambient noise for clear calls
- ✓ Enjoy flexible multipoint connectivity and renowned stereo sound
- ✓ Maximize productivity and comfort with soft leatherette ear pads
- ✓ Stay stylish with a boom arm that folds discreetly away
- ✓ Protection from acoustic shock with EPOS ActiveGard® technology

EXPAND 20 Series
Wired speakerphone

EXPAND 80 Series

Speakerphone solution for medium-sized meeting rooms

This bundle combines a premium Bluetooth® speakerphone with up to two extension microphones, delivering a natural experience for meetings with up to 16 in-room participants.

Key Benefits

- ✓ Get your message across with six adaptive beamforming mics and DSP
- ✓ Enjoy rich, natural sound with a powerful ultra-low distortion speaker
- ✓ Experience Scandinavian design with high-quality materials and sound-enhancing fabric
- ✓ Set up easily with integrated cable management and Kensington Lock support

See more at eposaudio.com/expand-80

EXPAND 40 Series

Portable Bluetooth® speakerphone with exceptional audio

This sleek and portable Bluetooth® speakerphone lets you join meetings instantly and delivers crystal clear audio performance on both ends of the call.

Key Benefits

- ✓ Isolate your voice and reduce ambient noise with three beamforming mics
- ✓ Allow simultaneous speech with industry-leading duplex performance
- ✓ Optimize and tailor to your exact needs using EPOS Software Solutions
- ✓ Connect easily to any device via Bluetooth® or USB-C cable

See more at eposaudio.com/expand-40

EXPAND 30 Series

Portable Bluetooth® speakerphone
for instant conferencing

This portable Bluetooth® speakerphone delivers high-quality audio in personal and smaller conferences with up to 8 participants.

Key Benefits

- ✓ Connect seamlessly to up to three devices with multipoint
- ✓ Experience exceptional audio with EPOS Voice™ technology
- ✓ Enjoy durable, lightweight design crafted from premium materials
- ✓ Set up instantly via plug-and-play Bluetooth® or USB-C

See more at eposaudio.com/expand-30

EXPAND 20 Series

Wired speakerphone for easy
on-the-go conferencing

This plug-and-play wired speakerphone delivers premium audio and connects seamlessly to your mobile, laptop, or tablet for flexible conferencing.

Key Benefits

- ✓ Experience plug-and-play conferencing via USB or 3.5mm jack
- ✓ Get premium sound with duplex performance and echo cancellation
- ✓ Easily take with you for use in personal and small meeting rooms
- ✓ Enjoy solid design crafted to perfection with high-quality materials

EPOS Audio and Design

Innovation you can hear

We recognize the importance of individuals having premium audio solutions. We know that what you hear, how your voice is captured, and the comfort of wearing your headset, are all crucial factors. That's why we categorize our product development into three distinct areas to ensure a comprehensive understanding of our technical capabilities:

- EPOS Sound™
- EPOS Voice™
- EPOS Design

By meticulously addressing each of these areas, we ensure that our products deliver an unparalleled audio experience including sound quality, microphone performance and product design.

EPOS Sound™

Sound as if you were right there

EPOS Sound™ creates an immersive experience, making it feel like you're speaking face-to-face. It monitors ambient sound and adjusts volume levels to help you concentrate and protect your hearing. You can listen to teammates or announcements without removing your headset and block out background noise for better focus, boosting your performance and energy levels.

EPOS Active Noise Cancellation (ANC)

This noise reduction technology features an "adaptive" capability that continuously monitors your surroundings and automatically adjusts to ambient noise, delivering the optimal level of suppression exactly when and where it's needed.

Semi-open acoustic technology

A specially designed, semi-open acoustic vent system allows some sound to escape while permitting controlled ambient noise to enter, effectively reducing occlusion.

EPOS ActiveGard™ technology

This technology protects headset users against acoustic injuries from sudden sound bursts while maintaining continuous communication.

Play sound
without
EPOS Sound™
(Room Experience)

EPOS Voice™

Exceptional speech clarity

EPOS Voice™ enhances speech clarity by focusing on your voice and eliminating background noise. It ensures natural voice reproduction and adapts to your environment for clear sound, enabling seamless use of digital voice assistants anywhere.

Environmental noise cancellation (ENC)

AI based noise reduction incorporated in the microphones to reduce background noise, filter out disturbing ambient noise and enable crystal clear conversations.

Own voice detector

AI based own voice detector ensuring same clarity of voice independent on boom arm positioning.

SpeakFocus™ Technology

Focuses on your voice to deliver a calm, steady sound picture, which enhances voice intelligibility for listeners.

Super wideband audio technology

Subtle tonal details enhance understanding. Your voice will be crisper and clearer, enabling callers to hear all nuances for complete intelligibility.

WindSafe™ Technology

By balancing and enhancing the user's voice when speaking outside in windy conditions, it ensures the clearest possible sound is sent to your listener.

EPOS AI™

An embedded machine learning system in EPOS audio devices processes audio and makes decisions independently. By leveraging advanced algorithms, this system enables the device to automatically adapt to your speech and analyze your sound environment.

EPOS Design

Crafted to Last, Designed to Excite

Crafted with a passion for design, pioneering technology, and a love for detail, EPOS products are designed for those who demand excellence from their audio devices. We use high-quality materials to craft solutions that are built to last, providing the perfect balance between exceptional audio and maximum wearing comfort.

EPOS IntelligentFit™

An advanced ear fit analysis tool that leverages AI and a comprehensive database of over half a million ear scans. This technology predicts the optimal earbud shape, enabling EPOS to design earbuds that provide the best combination of comfort, sealing, and stability available on the market.

Sustainability

EPOS is committed to contributing to UN's Sustainable Development Goals.

Climate impact. We strive to reduce packaging and waste, support production and sourcing of green energy and strive for ambitious emission reductions particularly in our use of transport.

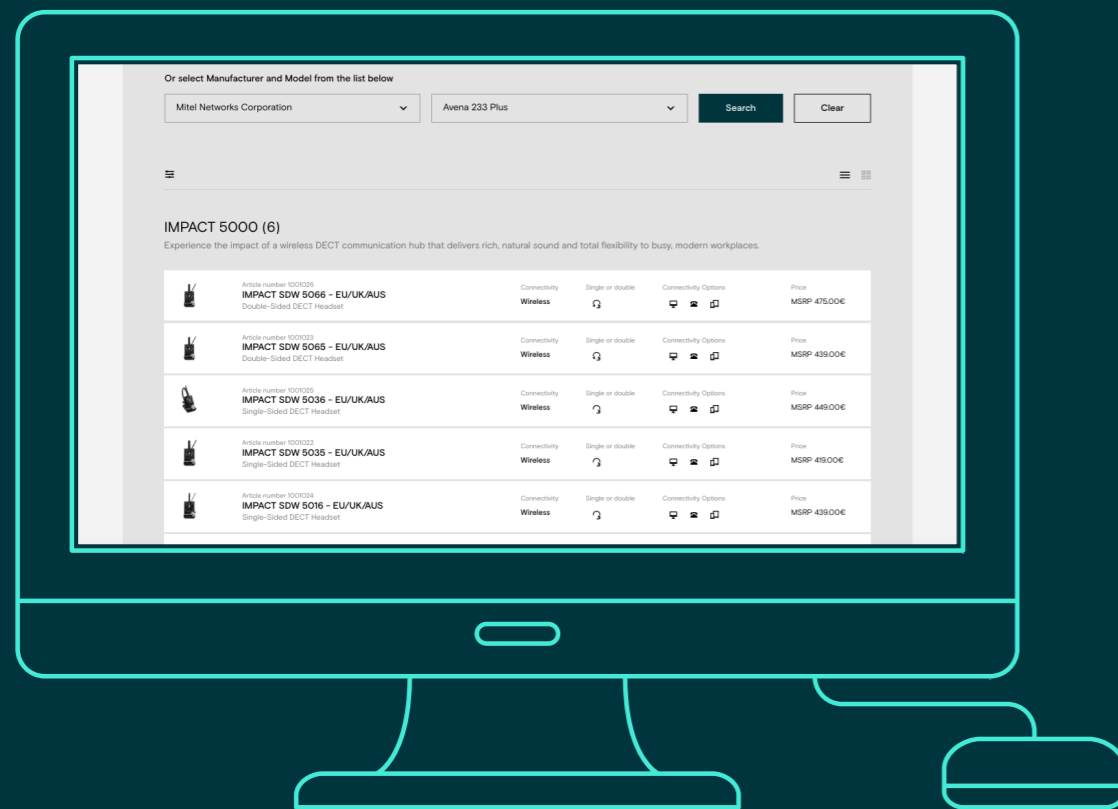

Diversity and inclusion. We honor diversity and foster an unbiased and inclusive culture with equal opportunities. We have a focused approach to diversity, equity, and inclusion

Compatibility Guide

Looking for a business headset for a particular phone, device or platform?

Use our online Compatibility Guide to find the choices available to you and to learn about the different headset features.

Try EPOS Online Compatibility Guide
eposaudio.com/compatibility

Choose the right headset

You need your device to work seamlessly with your headset. It's that simple. EPOS headsets are designed to cover every possibility.

Device/Connectivity

Softphone/PC – Connection via USB/USB-C cable or USB dongle (Bluetooth®) to Microsoft Windows or Apple MacOS.

Mobile phone – Connection via Bluetooth® or 3.5 mm jack cable.

Tablet – Connection via Bluetooth®, 3.5 mm jack cable or USB depending on tablet.

Desk phone – Connection via multiple types of cables.

EPOS Digital Solutions

Empower Your Business Anywhere

Save valuable time and make life simpler and smarter for your IT department, your business and your colleagues. By keeping you in touch with all your EPOS devices, EPOS Manager puts you in control of your company's UC environment in three key areas:

Asset Management

[Get the overview](#)

See all your devices on the dashboard; from headsets to speakerphones and even non-EPOS devices. All users are registered in the system, which shows both active and inactive devices – who is using which device and how they are being used. Simply reallocate redundant resources to boost productivity. Reports on usage and firmware compliance keep you in complete control of company assets.

Update Management

[Less downtime, more convenience](#)

A flexible and cost-effective way to get the latest firmware updates to all your organization's EPOS devices, whenever it's convenient for you and your end-users. Push new updates to an unlimited number of devices across your organization from one simple dashboard. Schedule your automated updates to cause minimum downtime and disruption to your company's workflow.

Configuration Management

[Easy for you, easy for end-users](#)

The centralized configuration option allows all settings to be controlled from the IT department, ensuring that headset user's experience a simple plug and play solution. You can centrally push configurations or lock specific specifications on EPOS devices to comply with regulatory compliance settings for specific groups or individuals.

EPOS Manager for IT Administrators

Optimize your business and boost employee performance with a free, flexible and secure tool that manages your audio devices and analyses their use.

Manage And Update Devices From Anywhere

Remotely deploy and configure audio devices and get the latest firmware updates across locations to minimize downtime.

Gain Analysis And Insight

Extract reports on device mix and headset usage to gain insights into the way your company works and how it can be improved.

Complimentary With EPOS Audio Solutions

Choose between on-premises or cloud-based freeware with unlimited software updates.

EPOS Connect for Headset Users

Update with the latest firmware and personalize your EPOS audio device settings to ensure flawless operation and maximum productivity. EPOS Connect works with Windows, Mac and VDI/thin clients.

The Latest Updates

Get the latest firmware updates to enhance your EPOS devices and ensure your performance at work.

Personalized Audio Experience

Wherever you work, personalize your device settings to suit your working situation and choose a default softphone and headset.

Control Calls Seamlessly

Connect your headset and softphone for full call control including; answer/end calls, adjust volume and mute.

Service and Support

We've got you covered

Remote support

Receive remote technical assistance from our Support Engineers for pre-installation preparation, installation, and troubleshooting.

On-premises support

Get an on-site visit from our highly skilled Support Engineers to assist you with installation and troubleshooting.

Additional support services:

- 2-year full warranty on all devices
- 3-year full warranty available on selected products
- Setup and configuration help (FAQs, How-To Videos, Tutorials, etc.)
