

## MicroSaver® Micro DS Keyed Ultrabook Locks - Custom Master Access - Master Keyed

K64605M

### Product Description

Ultrabook™ and MacBook® laptops are valuable business tools, and desirable for thieves, but they are frequently too thin for a standard cable lock. The MicroSaver® DS Ultra-Thin Laptop Lock has a sleek profile to fit thinner devices and a rotating head to eliminate awkward angles when inserting the key.

### Features

- Tamper-resistant, disk-style lock provides near-impenetrable theft protection
- T-Bar™ Locking Technology attaches to the Kensington Security Slot™ found on most laptops
- Carbon steel cable is cut-resistant and anchors to desk, table or any fixed structure
- Register & Retrieve™ program allows you to order replacement keys
- Pivot and Rotate cable hinge creates great freedom of movement and eliminates awkward angles for key insertion
- Master Access allows both the user and administrators to unlock or reset locks at any time

### Specifications

- **Cable Construction** 7x7
- **Lock Management** Master Keyed
