CB-QSFP4X10G-5M

The MicroOptic part MO-CB-QSFP4X10G-5M is a 40G QSFP+ to 4 10G SFP+ Direct Attached Copper Cable (1/3/5M in length), which is designed to work with PLANET products with a 40G QSFP+ interface to provide a cost-effective interconnect solution for merging 40G QSFP and 10G SFP+ enabled host adapters, switches and servers. Each QSFP-SFP+ splitter cable features a single QSFP connector (SFF-8436) with a data rate of 40Gbps on one end, and each of the four SFP+ connectors (SFF-8431) has a data rate of 10Gbps on the other. The MO-CB-QSFP4X10G-5M can be inserted into PLANET switches with a 40G SFP+ interface, such as XGS-6350-24X4C.
