LEXMARKTM

Lexmark C935dn

Brilliant colour meets
wide-format printing!

Lexmark and the art of colour

Lexmark's is allowing more and more enterprises to produce their own colour documents in-house. Print off a couple pages from the Lexmark C935dn and it's easy to see why! It uses Lexmark's newly enhanced colour toner, which boasts one of the largest colour gamuts in the industry. Whether you're printing brochures or large signs, you'll benefit from crisp text, rich flesh tones and consistent images every time – from first page to last!

Powerful, high-end printing

With its robust and reliable new design, the C935dn offers you all the power and performance you need to reach your true potential. It races through print runs as fast as 45 ppm in mono and 40 ppm in colour, which means less time spent hanging out at the printer. Maintenance and operation is a breeze for anyone, thanks to the intuitive operator panel and easy, front-loading consumables. Top it all off with the most cutting-edge security features and you've got a true productivity workhorse.

Lexmark C935dn

Colour costs that YOU control

Great quality and performance doesn't have to mean heavy costs. In addition to its competitive cost per page, the C935dn arms you with the most complete range of colour-cost control tools in the market. Among others, this includes colour print permission via user ID, plus multiple toner-saver levels that can save you up to 50% on toner. There's even a coverage estimator, which can be configured to show your end-users the cost of a colour page before they launch a large print job.

Flexibility from start to finish!

When it comes to versatility, the possibilities of the C935dn are practically endless. It gives you fabulous results over a wide range of paper types, from tiny shelf labels and transparencies to large posters. For even greater flexibility, you can opt for extra input drawers and full finishing. And in addition to stapling and hole-punch, the C935dn offers booklet finishing, which is ideal for creating your own eye-catching catalogues or newsletters in-house.

Lexmark C935dn

Versatile features...

Secure print, delay print, sample set, booklet creation, cover selection, paper selection by attribute, multi-up, watermark, annotation, poster, fit to new paper size, transparency interleave, output tray selection, store and recall driver settings, colour balance and controls.

Standard finishing...

For heavier workloads the standard finisher provides two output bins for a total capacity of 3,500 sheets. And it accommodates 50-sheet stapling for sturdier report production and 4-hole punching.

Advanced finisher...

To create the most professional-looking documents with just a few simple mouse clicks, opt for the advance booklet finisher. It lets you print off 20 sets of 15 sheets each with booklet stapling.

Which model is perfect for your needs?

Lexmark C935dn

- Duplex and network-ready
- 256 MB of standard memory
- 620-sheet input capacity

Lexmark C935dtn

- Duplex and network-ready
- 512 MB of standard memory
- 1,140-sheet input capacity

Lexmark C935dttn

- Duplex and network-ready
- 512 MB of standard memory
- 3 140-sheet input capacity

Lexmark C935hdn

- Duplex and network-ready
