ekahau

Ekahau University Measure On-Demand

ekahau UNIVERSITY

This in-depth training course is designed to equip you with the skills needed to perform accurate Wi-Fi site surveys using Ekahau tools. This course is tailored for professionals looking to maximize the efficiency and effectiveness of their network data collection, leveraging the Ekahau Survey Mobile App and the Sidekick 2.

Course Details:

- **Format:** Video On-Demand

- **Target Audience:** Onsite staff, IT teams, and Network Engineers

What You Will Learn:

- **Introduction to Ekahau Measure License:**

  + Overview of the Ekahau Survey Mobile App (iOS/Android)

  + Utilizing all the Survey Modes, including the Just Go Survey Mode

  + Cloud Project Sync with Guest Sharing

- **Survey Techniques and Best Practices:**

  + How to perform accurate Wi-Fi site surveys using the Ekahau tools

  + Step-by-step guidance on using the Sidekick 2 and Survey Mobile App

  + How to identify wireless security vulnerabilities

  + Best practices for surveying multiple environments

- **Collaborative Surveying:**

  + Strategies for dividing and conquering large survey projects

  + Techniques for shortening the time required to complete surveys in large, complex environments (campuses, distribution centers, multi-floor buildings)

- **Efficiency and Optimization:**

  + Reducing travel and time-to-resolution through local survey teams

  + Eliminating unnecessary travel and out-of-office time for central network managers

  + Expediting data collection in time-sensitive troubleshooting situations

- **Project Management and Data Analysis:**

  + Using Ekahau Cloud to ensure project synchronization

  + Compiling and interpreting summary statistics with Ekahau Insights

By the end of this course, you will be proficient in conducting efficient and accurate Wi-Fi site surveys, enabling your team to deliver optimized network performance with reduced travel and faster resolution times.
