

PowerLite® 1815p Quick Setup

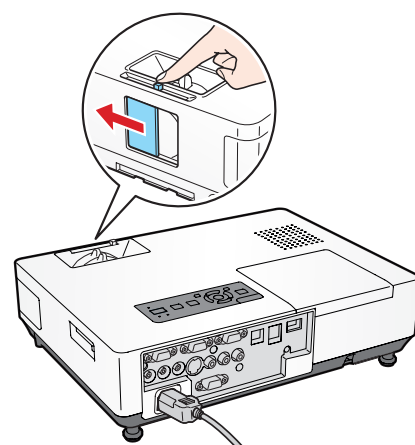

Before using the projector, make sure you read the safety instructions in the *User's Guide* on your projector CD.

1 Turn On Your Equipment

- 1 Connect the power cord to the back of the projector and plug the other end into an electrical outlet.

- 2 Open the **A/V Mute** slide (lens cover). Make sure the slide is opened completely.

- 3 Remove the battery cover on the remote control. Locate the two AAA batteries that came with the projector and insert them. Then replace the battery cover.

- 4 To turn the projector on, press the **Power** button on the projector or the remote control. The projector beeps once, and the projector's **Power** light flashes green and then stays on.

To shut down the projector:

1. Press the **Power** button twice.
2. When the orange light stops flashing and the projector beeps, you can unplug the projector.

2 Adjust the Image

- 1 To raise the image, press the foot release button for the front adjustable foot and lift the front. Release the button to lock the foot in position.

- 2 Turn the focus ring to sharpen the image.
Turn the zoom ring to reduce or enlarge the image.

- 3 If your image looks like □, □, □, or □, press the **Quick Setup** button on the projector and follow the on-screen instructions.

3 Choose a Presentation Method

How do you want to get images to the projector?

- To connect to a notebook, see "If connecting to a notebook" below.
- To project over a wireless network, see "If projecting wirelessly" on the back of this sheet.

Computer cable

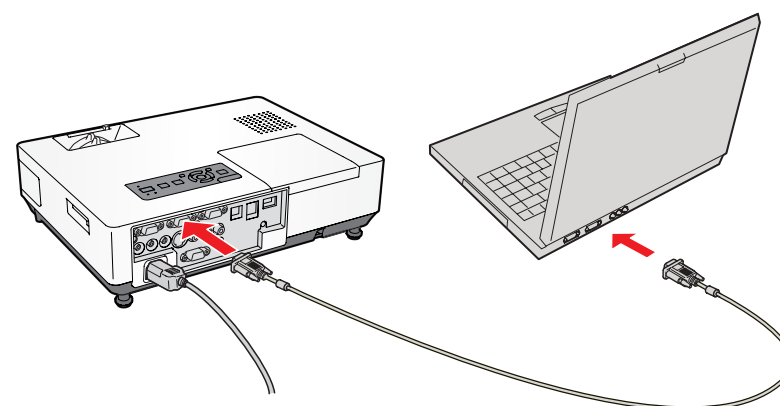

You must have installed the projector's EasyMP™ software and configured your projector and computer before you can project wirelessly. See your *User's Guide* for instructions.

- To give a presentation stored on a CompactFlash memory card, flash drive, digital camera, or other USB storage device, see Chapter 5 in your *User's Guide*.
- To connect to your notebook using the included USB cable, see your *User's Guide*.

If connecting to a notebook...

- 1 Turn on the projector and adjust the image as described in sections 1 and 2.
- 2 Locate the computer cable that came with the projector. Connect one end to the projector's blue **Computer1** port.

Connect the other end to your notebook's video-out port or  monitor port.

- 3 Press the **Source Search** button on the projector or the **Search** button on the remote control until your computer image is displayed.

NOTE: If your notebook has a DVI connector, you need to use an optional DVI-to-VGA adapter with the included computer cable (see your computer's documentation).

- 4 If you see a blank screen or you don't see the image you are trying to project from your computer, make sure the **Power** light on the projector is green and not flashing, and the **A/V Mute** slide (lens cover) is open.

Windows®: Hold down the **Fn** button on the keyboard and press the function key that lets you display on an external monitor. It may have an icon such as , or it may be labeled **CRT/LCD**. (Allow a few seconds for the projector to sync up.)

- 5 If your projector and notebook don't display the same image, do the following:

Windows: Try using the **CRT/LCD** or  function key, as described above. If this doesn't work, double-click **Display** in the Windows Control Panel. In Windows Vista,™ right-click on the desktop and select **Personalize**, then select **Display Settings**. Make sure both the LCD screen and monitor port are enabled. See your Windows online help for details.

Macintosh® OS X: From the **Apple®** menu, select **System Preferences**, then click **Displays**. Select the **VGA Display** or **Color LCD** dialog box, click the **Arrangement** (or **Arrange**) tab, and make sure **Mirror Displays** is checked.

If projecting wirelessly...

Follow the steps in this section to project over an 802.11g, 802.11b, or 802.11a wireless network from a computer running Windows 2000, XP, or Macintosh OS X 10.3 to 10.4.x.

NOTE: You must have already installed the projector's EasyMP (EMP NS Connection) software and configured your projector and computer. See the User's Guide for instructions. Also, your computer must have a wireless card or built-in wireless connection.

- 1 Install the wireless module. If necessary, secure it using the screw included with your projector.
- 2 Turn on the projector and adjust the image as described in sections 1 and 2 on the front of this sheet.
- 3 Select EasyMP as the source by pressing the **EasyMP** button on the remote control.

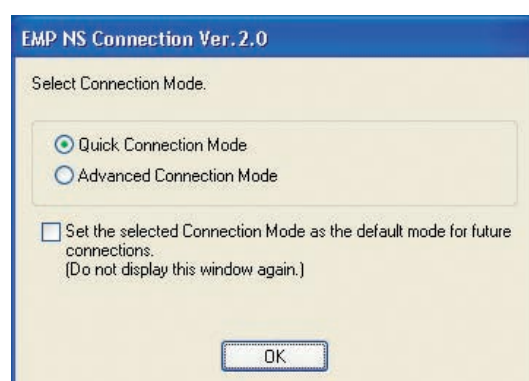

The projector displays a screen like this:

- 4 **Windows:** From the Start menu, select **EMP NS Connection**.

Macintosh OS X: Double-click the **EMP NS Connection** icon in your Applications folder.

You see this screen:

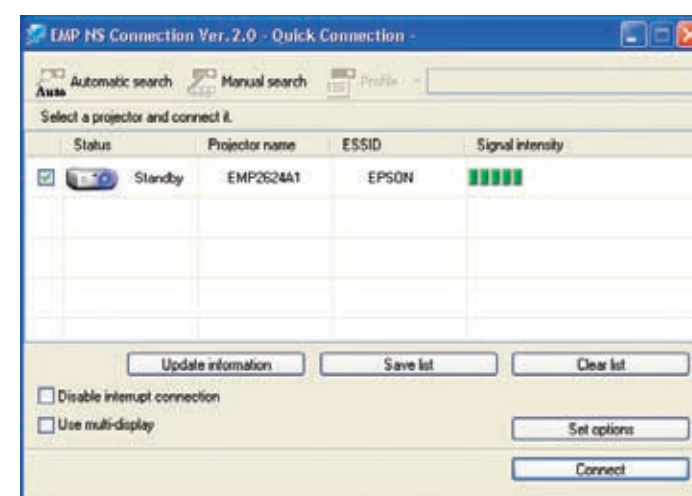

- 5 Select **Quick Connection Mode** and click **OK**.

If you see this screen, click **Yes**.

You see this screen:

- 6 Once the name of your projector appears, select it and click **Connect**.

If a projector is in use and is "locked" to prevent interruption, you won't be able to select it.

- 7 If you see a message asking for a keyword, enter the four digits that appear on the EasyMP Network Screen and click **OK**.

You see the image on your monitor transmitted to the projector, and a floating control bar appears on the computer screen:

- 8 When you're done with your presentation, click **Disconnect** on the control bar.

Where To Get Help

Telephone Support Services

To use the Epson PrivateLine® Support service, call (800) 637-7661 and enter the PIN on the Epson PrivateLine Support card that came with your projector. This service is available 6 AM to 6 PM, Pacific Time, Monday through Friday, for the duration of your warranty period. You may also speak with a projector support specialist by dialing one of these numbers:

U.S.: (562) 276-4394, 6 AM to 6 PM, Pacific Time, Monday through Friday
Canada: (905) 709-3839, 6 AM to 6 PM, Pacific Time, Monday through Friday

Toll or long distance charges may apply.

Internet Support

Visit Epson's support website at epson.com/support and select your product for solutions to common problems. You can download utilities and documentation, get FAQs and troubleshooting advice, or e-mail Epson with your questions.

Visit <http://www.presentersonline.com> to access tips, templates, and training for developing successful presentations.

Register today to get product updates, special promotions, and customer-only offers. You can use the registration card or CD included with your projector, or register online at www.epson.com/webreg.
