Elevating performance,

every day.

Through inventive product design and commitment to customer support, Capsa Healthcare has been a market leader for over 50 years.

Our job is to help you do yours. **Capsa Healthcare** is built upon a 50-year foundation of experience and innovation designed to improve the organization, efficiency, and accuracy of healthcare providers. We strive to elevate your performance by offering innovative solutions that positively impact clinical effectiveness in healthcare environments. We understand the delivery of healthcare cannot wait, which is why we continually invest in product development, technology innovation, service, and support to make sure we are the logical choice for products that elevate the performance of healthcare delivery at the point-of-care.

Capsa Healthcare provides an extensive portfolio of mobile computer carts, point-of-care wall mount products, and creative service programs designed to optimize your health I.T program. With improved cart runtime and simple serviceability, Capsa's mobility solutions improve user experience and support better clinical workflow.

Features

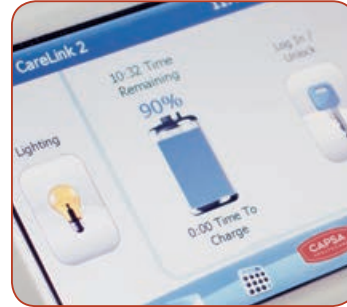

Saves Time

Reduce time wasting activities and increase time spent with patients

Communication Tools

Using on-board messaging software, sending service requests and receiving notifications is easier than ever

Battery Runtime Icon

Easy-to-read battery status icon indicates the amount of runtime remaining

Electronic Lift

Save personalized preferences, such as seated and standing heights, through a fleet-wide memory system

External USB Ports

Easy access to ports and power without removing the work surface

Easier to Move

Improved maneuverability and ergonomics assist with workflow and decrease patient disruptions

N-Stride™ Steering Control

By locking a front caster, users can easily navigate halls and turn corners without unnecessary strain

Dual-Position Handles and 5" Casters

Ergonomically designed handles provide additional user comfort, while larger casters help cross thresholds and maneuver over carpet

Additional Lighting Options

Three lighting options assist with navigating and working in darkened areas without disrupting patients

Height-Adjustable Rotating Monitor

Easy-to-move adjustable monitor helps ensure proper ergonomics to both prevent injury and promote sharing of information with patients

Features

Intelligent Platform

Helps clinicians focus on patient care with an intuitive, flexible platform designed to avoid obsolescence

Individual Preference Settings

Personal preference settings are saved and transferred to all carts

Proactive Fleet Management

Independent fleet management software allows for remote configuration and upgrades, asset monitoring and utilization, and cart locators

Flexible to Meet Changing Needs

Future-proof design provides a universal power system and ability to easily upgrade to medication administration without purchasing a new cart

Software-Based Platform

Out-of-the-box software requires no installation or maintenance on hospital servers

Laptop Cart

Designed specifically to accommodate your choice of laptop computers, the LX5 Laptop Cart offers a lightweight and non-powered design that lets you configure the cart to best meet your requirements. The LX5 promotes simplicity and value to help lower your total cost of mobilizing health IT software.

- Accommodates widescreen laptops featuring up to 17" screen
- Ergonomic adjustability is simple with LiftAssist™ height adjustment
- Laptop anti-theft security bridle
- Small footprint, slim profile, and super-lightweight
- Flexibility to configure with storage drawers including 3" or 6" depth

Wide Screen

Capable of accommodating widescreen laptops featuring 17" monitor

Lockable Drawers

Optional 3" or 6" key lock storage drawers provides secure storage of medications and supplies

Removable Drawer Tray

Store small items with drawer trays that can be sub-divided to meet specific storage needs

LX5

Computing Cart

With its light-weight construction, compact and ergonomic design and large work surface, the non-powered M40 Computing Cart is ideal for mobile electronic documentation needs.

Easy access to power button for reboot

Integrated light with auto shut-off feature for nighttime use

T-track provides a universal mounting point for accessories

Available with monitor mount and CPU storage

- Integrated keyboard light with auto shut-off feature for nighttime use
- Document cover protects reference documents and notes placed on the work surface
- Oversized 20" wide x 11" deep work surface
- Work Surface has a 16" range of adjustable height
- 19" x 21" compact base for easy maneuvering in patient areas and tight spaces
- Accommodates up to 17" notebook and tablet PCs
- Contoured handles minimize strain when pushing cart
- Handles located in front and back

M40

Fluid™ ULT Arm

Wall Mounted Workstation

The Fluid ULT Arm is designed to provide maximum stability, flexibility, and functionality to facilitate clinical documentation and patient interaction in nearly any healthcare environment.

- Integrated keyboard light with auto shut-off
- Independent monitor and keyboard rotation of 180°
- 22" in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, configure with an optional extension arm to provide 62" of reach into care environment
- Slim profile under 9.5" when stored to maximize space and function in care environments
- Constructed to allow for mounting onto previously installed industry compatible tracks or supplied 34" track
- 20 pound weight capacity supports a variety of monitor configurations

Easy to Organize

Expansive work surface with left/right mouse surface and enclosed keyboard storage

Maximum Extension

Optional extension arm provides 62" of reach that allows closer patient engagement

Easy to Adjust

22" in vertical arm adjustment with 180° independent monitor and keyboard rotation

AX Series Arm

Monitor Arms

The AX Series Monitor Arm lets you select the combination of components to build your ideal health IT workstation. When price / value matters most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

- Designed to provide effortless use through a flexible range of motion that supports patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable relationship space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of your healthcare environment and maintains its attractive appearance over time
- Trim-line profile under 8" when stowed for care settings that demand compact and functional hardware mounting

AX Series Arm

Efficient physical space requirements keep EHR close at hand without inhibiting clinical workflow or cluttering patient care area.

AX Series Arm

Monitor Arms

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

- Available in rear or top mount options to fit a variety of carts
- Provides a flexible mobility system with ergonomic adjustability
- Selection of laptop trays available including secure and lockable options

Tandem Arm™ & Slim Line

Wall Mounted Workstations

The Tandem Arm and Slim Line redefine wall-mounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5" w x 11" d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

Lighted Worksurface

CareLink™ Fetal Monitoring Cart

The NEW CareLink Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight fleet management for remote asset management
- N-Stride steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

CareLink™ High Capacity Medication Cart

With its compact footprint and flexible bin system, the CareLink High Capacity Double RX Medication Cart maximizes nurse efficiency, mobility and patient safety.

Features

- 5 bin sizes that can be mixed and matched to individual unit and nurse preferences
- Available in 6 or 8 row models (RX-XP or DRX)
- Electronic keyless entry system
- Optional side mount expansion packs or bins
- Communication tools: receive messages and send service requests
- N-Sight fleet management for remote asset management

Telehealth Carts & Wall Mounts

From basic platforms to those with enhanced functionality, our Telehealth solutions are simple, versatile and clinical. Choose from Telepresence cart solutions that will accommodate video conferencing technologies, to Telemedicine platforms for integrating medical peripheral cameras and scopes. Wall mount solutions offer flexible configurations for tighter space requirements.

Features

- Telemedicine platforms offer I/O panel plug-n-play to easily integrate medical peripheral cameras and scopes with customer supplied PC or Codec
- Telepresence carts enable video communication to enhance workflow, with real-time consultations
- Wall mount solutions provide another virtual care platform with a small, lightweight footprint, requiring minimal wall space
- The CLINiC clinical care device offers flexible configurations that connect doctors and clinicians to patients
