

HP Chromebook 14 G6 (1A873UT)

Overview

An essential, large-screen Chromebook for frontline workers, educators, and students

Seize your day with the durable HP Chromebook 14 G6 and its manageable, secured, and intuitive Chrome OS and Intel® processors.[1] Expand with future-ready USB-C™ and HDMI and get maximum uptime from a long-running battery.

Designed for working and learning

Master your to-do list with a 14" diagonal screen, Intel® processors[1], Chrome OS, and fast-charging battery. Connect in dense areas with WLAN 802.11 ac[4], MU-MIMO[5], and HP Extended Range Wireless LAN.[6]

Designed for easy collaboration

Collaborate in the room with an optional narrow bezel, wide viewing angle IPS screen[2], wide-angle HD webcam, and dual mics. Add your display, projector or accessories with HDMI and USB-C™. Navigate in low light with the optional backlit keyboard.[2]

Built for reliability

Get a device built for everyday wear and tear with metal corner reinforcements. It undergoes a 76 cm drop test[3] on concrete, HP's Total Test Process[7], and MIL-STD 810G testing.[8] The keyboard resists spills of up to 350 ml (12 oz) of water.[7]

[1] Multi-core is designed to improve performance of certain software products. Not all customers or software will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering branding and/or naming is not a measurement of higher performance.

[2] Sold separately or as an optional feature that must be configured at the time of purchase.

[3] Drop test is not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

[4] Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 5 (802.11 ac) is backwards compatible with prior 802.11 specs.

[5] Multiple-Input Multiple-Output (MIMO) is a wireless technology that uses multiple transmitters and receivers to enhance data transfer. MIMO requires a MU-MIMO router, sold separately.

[6] Based on internal testing vs. previous generation product with 802.11ac wireless LAN module.

[7] HP Total Test Process testing is not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

[8] MIL-STD testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
