Product Description

An essential cable for conference rooms and educational environments, the Kensington DisplayPort 1.1 (M) to DVI-D (M) Passive Cable transmits Full HD video from your computer to a monitor or projector. Ideal for connecting extended desktop or mirrored displays, or home video streaming and gaming displays. This high-quality cable is tested to perform with Kensington docks—and is backed by a Kensington Limited Lifetime Warranty. Quality cable construction includes shielded copper conductors, flexible outer jacket, and thumb screws to provide consistent cable performance and reliable connectivity.

Features

- Supports video resolution up to Full HD. Also HDCP compatible for viewing protected content.
- Built using components that ensure consistent video transmission.
- Buy with confidence. Tested to work with Kensington docks.
- Accommodates desktop setups.
- Good for home, office or classroom.
- Works with DP++.
- Works with Kensington docking station deployments.
