6-OUTLET
SURGE PROTECTOR
(6 AC OUTLETS & 2 USB PORTS)

P6WSUCPD

Cyber Power Systems (USA), Inc.

4241 12th Avenue East, Suite 400 | Shakopee, MN 55379

CyberPowerSystems.com

FEATURES

1. Surge Protected Indicator LED

Illuminated when the surge protection feature is working properly.

2. Grounded Indicator LED

Illuminated when a properly grounded AC outlet is detected.

3. Standard Grounded Tamper-Resistant Outlets (6)

Prevents accidental electrical shock by blocking foreign objects from entering the open spaces with internal shutters.

4. Pivoting Outlets

Pivoting outlets for ease of use and convenience.

5. USB Ports (2)*

Connect and charge up to two USB devices using the surge protected USB charging ports.

*USB outlets cannot be used as a USB hub. This device does not transfer data.

SPECIFICATIONS

Model Number:	P6WSUCPD
Outlets:	6 Standard Grounded Outlets, 1 USB-A, 1 USB-C Charging Port
Surge Protection:	2,000 Joules
Electrical Rating:	125 V/15 A/1875 W
USB-A OUTPUT:	5 V/2.4 A Max
USB-C OUTPUT:	5 V/3 A Max, 9 V/2.22 A Max
USB Charging Output:	20 W
UL Clamping Voltage:	UL 1449 4th/600 V (L-N, L-G, N-G)
Maximum Peak Current:	60,000 A
3 AC Lines Protected:	L-N: 30,000 A; L-G: 15,000 A; N-G: 15,000 A
Response Time:	Less than 1 nanosecond
Attenuation:	Up to 32 dB
EMI/RFI Filtration:	150 kHz to 100 MHz

⚠ **WARNING:** This product can expose you to chemicals including bisphenol A (BPA) and styrene (ABS), which is known to the State of California to cause reproductive harm and cancer. For more information, go to www.P65Warnings.ca.gov.

CAUTION

TO REDUCE THE RISK OF ELECTRIC SHOCK:

Use only in dry locations and only indoors.

DO NOT plug into another relocatable power tap.

DO NOT "daisy chain" surge protectors.

DO NOT use with any aquarium equipment.

DO NOT use if properly grounded outlets are not available.

DO NOT install this device if there is not at least 10 meters (30 feet) or more of wire between the electrical outlet and electrical service panel.

DO NOT use for medical or life support equipment. This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but it will maintain unprotected power to the load.

TROUBLESHOOTING

If the grounded indicator does not light when you plug in the surge protector, move the surge protector to a different grounded three-prong AC outlet. If it still does not light, return the product to the retailer for assistance. If the surge protector appears to be working properly, your outlets may not be properly grounded and need to be repaired by a professional electrician.

If the protected indicator does not light, the surge protector's AC lines are no longer protected from surge. The surge protector may have received a power surge or spike beyond its specified limits that overloaded the protection circuitry and rendered it inactive. The surge protector has protected your connected equipment as designed, but it will not protect against future surges, and spikes. It should be replaced.

CONFORMANCE APPROVALS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against

harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

7-OUTLET
SURGE PROTECTOR
(7 AC OUTLETS & 2 USB PORTS)

P704URC1

USER MANUAL

Cyber Power Systems (USA), Inc.

4241 12th Avenue East, Suite 400 | Shakopee, MN 55379

CyberPowerSystems.com

FEATURES

1. ON/OFF Reset Control Switch and Circuit Breaker

Controls power to all outlets. The switch is also a 15 A breaker. When an overload occurs, it will automatically switch off. To resume operation, ensure the overload condition is removed and reset the surge protector by switching the unit ON.

2. Surge Protected Indicator LED

Illuminated when the surge protection feature is working properly.

3. Grounded Indicator LED

Illuminated when a properly grounded AC outlet is detected.

4. Standard Outlets (6)

5. Wide-Spaced Outlet (1)

Plug in large chargers without interfering with the other outlets.

6. USB Ports (2)*

Connect and charge up to two USB devices using the surge protected USB charging ports.

*USB outlets cannot be used as a USB hub. This device does not transfer data.

SPECIFICATIONS

Model Number:	P704URC1
Outlets:	6 Standard Grounded Outlets, 1 Wide-Spaced Outlet, 2 USB-A Charging Ports
Surge Protection:	2,000 Joules
Electrical Rating:	125 V/15 A/1875 W
USB Charger Rating:	5 V/2.4 A (shared)
UL Clamping Voltage:	UL 1449 4th/600 V (L-N, L-G, N-G)
Maximum Peak Current:	60,000 A
3 AC Lines Protected:	L-N: 30,000 A; L-G: 15,000 A; N-G: 15,000 A
Response Time:	Less than 1 nanosecond
Attenuation:	Up to 32 dB
EMI/RFI Filtration:	150 kHz to 100 MHz
Circuit Breaker:	Resettable 15 Amp
Power Cord Length:	4 ft
Plug Type:	Low Profile

⚠ **WARNING:** This product can expose you to chemicals including bisphenol A (BPA) and styrene (ABS), which is known to the State of California to cause reproductive harm and cancer. For more information, go to www.P65Warnings.ca.gov.

CAUTION

TO REDUCE THE RISK OF ELECTRIC SHOCK:

Use only in dry locations and only indoors.

DO NOT plug into another relocatable power tap.

DO NOT "daisy chain" surge protectors.

DO NOT use with any aquarium equipment.

DO NOT use if properly grounded outlets are not available.

DO NOT install this device if there is not at least 10 meters (30 feet) or more of wire between the electrical outlet and electrical service panel.

DO NOT use for medical or life support equipment. This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but it will maintain unprotected power to the load.

TROUBLESHOOTING

If the ON/OFF is switched OFF, the 15 Amp circuit breaker may have tripped. Examine your connected equipment and remove the device that is overloading the circuit. Then, turn the ON/OFF switch back to RESET.

If the grounded indicator does not light when you plug in the surge protector, move the surge protector to a different grounded three-prong AC outlet. If it still does not light, return the product to the retailer for assistance. If the surge protector appears to be working properly, your outlets may not be properly grounded and need to be repaired by a professional electrician.

If the protected indicator does not light, the surge protector's AC lines are no longer protected from surge. The surge protector may have received a power surge or spike beyond its specified limits that overloaded the protection circuitry and rendered it inactive. The surge protector has protected your connected equipment as designed, but it will not protect against future surges, and spikes. It should be replaced.
