

# Laptop Cable Lock - With Swivel Hinge - 4-Digit Combination Lock

Product ID: LTLOCK4D

Protect your laptop, dock or other device against theft while enhancing productivity with this laptop cable lock, providing a full range of motion. The laptop anti-theft lock has a 4-digit resettable combination for enhanced security at the office or on the go.

## Offers Greater Motion

While your laptop, dock or other device is secured with the locking cable, you can move your device freely. The swivel hinge allows motion in two directions - the hinge rotates 360 degrees around the lock head, and pivots 90 degrees for easy locking and unlocking.

## Resettable 4-Digit Combination Lock

Choose your own combination so you can remember it easily. Or, prevent others from knowing your passcode by changing it often. The 4-digit combination security cable lock is easy to change.

## **Secure Your Laptop**

Ensure that your laptop or other device is protected wherever you work. The 2 m (6.5') locking cable helps to prevent theft in areas with high foot traffic including a wide range of retail, commercial, educational and institutional environments. The cable lock is compatible with devices equipped with the industry-standard Kensington lock slot (K-Slot).

## **Versatile Use**

Ideal for use at the office or when travelling, the portable combination laptop lock features a strong vinyl-coated steel cable (4.4 mm diameter). To secure your device in different work spaces, the flexible steel cable bends easily to loop around a stationery post or object.

LTLOCK4D is backed by a StarTech.com 2-year warranty and free lifetime technical support.

### **Certifications, Reports and Compatibility**
