

## The HP large format printing system—the complete solution

HP Latex printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency-with every print.

# Experience outstanding, heavyweight, resin-coated photo paper for photographic printing

#### **Enjoy high-performance photo printing**

Now you can print high-end photography, posters, and retail graphics for either custom or high-volume projects with your HP Latex printer on this versatile resin-coated photo paper.

#### Move quickly and efficiently through production

There's no need to wait; print and deliver to provide quick turnarounds for your customers. This heavyweight photo paper (275 g/m $^2$ ) also provides increased stability for handling high-volume production.

#### Achieve spot-on, dynamic color

The bright-white finish provides a high dynamic range and a wide color gamut for color-critical, eye-catching reproductions on a gloss finish.

Target customers	Applications	Benefits	
Point-of-purchase providers	Photo enlargements	Prints come out completely dry, enabling production printing	
Trade show and exhibit companies	Art and décor reproductions	Heavy, thick construction for easy handling	
Photo and art reproduction houses	Point-of-purchase displays	Wide color gamut and bright-white surface	
	Trade show and event displays	FSC®-certified paper1
