Operating Instructions

To use the thermometer, remove the protective sheath, press the **ON/OFF** button and insert at least 1/2 of the stem into the testing area. The current temperature will be displayed. To save the battery life, the thermometer will automatically turn off after approximately 20 minutes.

Changing °F to °C

The temperature unit can be changed from Fahrenheit to Celsius by pressing the **°C/°F** button.

Hold Current Temperature

Press the **MODE** button once and "Hold" will appear on the display. To return to normal mode, press the **MODE** button three more times.

Recall Highest/Lowest Temperatures

To recall the highest temperature, press the **MODE** button twice and "MAX" will appear on the display. Press once more to recall the lowest temperature and "MIN" will appear on the display.
