# Xerox® Print and Scan Experience App

Easily print and scan in the Windows 10 and 11 environment.

The Xerox® Print and Scan Experience App facilitates efficient printing and scanning on Windows systems.

The Print and Scan Experience App helps you install and manage your Xerox® Devices through your Windows system and provides unique productivity tools to help you work more efficiently. What's more, updates happen seamlessly to continue enhancing your printing and scanning functionality.

Large, colorful, and intuitive icons on the app dashboard will enable you to choose what you would like to do with your scanned documents. Create your own scan job, tailor the brightness of your document, and manage your device settings - all through a single app.

Intuitive guidance through your task with teaching tips, as well as prompts to make your experience more productive - your scanning device should not hold you back!

## PRINTER DISCOVERY AND DRIVER INSTALLATION MADE EASY

Once installed on your Windows system, the Print and Scan Experience App auto-discovers your Xerox® Printers and installs suitable Print and Scan drivers.

These bi-directional drivers allow easy access to installed options like finishers and their associated functionality: stapling, hole punching, etc. Live media and toner levels ensure that the devices are always ready to use. Pop-up messages for completed jobs let users of shared devices know when your print is ready to pick up.

SCAN PRODUCTIVITY FEATURES

- **Auto crop**
  – Crops multiple original documents such as receipts into individual images
- **Auto straighten**
  – Automatically attempts to correct any slight alignment issues with scanned images

- **Auto remove**
  – Removes any blank pages within your scanned document
- **Auto rotate**
 – Rotates pages into the correct reading orientation

In this 4-page document, page 2 has been rotated and page 3 has been removed as it is blank.

Xerox® Print and Scan Experience App

BENEFITS YOU CAN ENJOY WITH THE APP

- **High productivity and high functionality in a single click:** The Print and Scan Experience App is for home users, small businesses, and anyone who owns a Xerox® Device, helping users to be more productive without the need for detailed knowledge. The app will also save you time on the post scanning work you would usually do.

- **1 touch setting:** Create 1-touch buttons to enable common complex workflows with a single button, saving you time.

- **Scanned file size optimization:** Compress scans to result in different file sizes to meet your needs – lower compression for higher quality images or higher compression for smaller file sizes that need to be emailed. Optimize as you wish.

- **No more skewed scans:** Automatically straighten and crop scanned pages within the app instead of editing them afterwards to save time and drive efficiency. Quickly and easily save your scanned images into single or multiple files.

- **Direct PDF printing:** Select a file, right-click it, and print directly using the settings you need. Save on the time needed to open the file, select 'Print' and configure print settings. Please check compatible products here.

- **Scans that work for you*:** Manipulate your scans by adjusting their brightness and contrast levels as well as choosing from thirteen different filters, to ensure scans are best suited for your need.

- **Do more with Xerox® Workflow Central Platform:** Workflow Central is an optional cloud service that allows users to take paper and digital documents and change them into a format that works for them. Xerox Print and Scan Experience App allows you to scan directly into WorkFlow Central to convert documents into an audio file to listen to in the car, translate to other languages, redact information for confidentiality, convert scans into Microsoft Office formats, and change handwritten messages into text.

*Apply a "Colorful" filter to make your scanned image appear sharper

The Print and Scan Experience App is available for all Xerox® Devices. Download it here: **https://www.office.xerox.com/en-us/software-solutions/xerox-print-and-scan-experience-app.**
