Key **Features**
Built-in Privacy Filter | A More Comfortable Workspace |

Environmentally Friendly Packaging | Convenient & Versatile Stand |

Loaded with Connectivity

Product **Description**

Protecting confidential information from unauthorized viewing is crucial for businesses, government institutions, and consumers alike. The ViewSonic VG2448-PF is a 24" (23.8" viewable) monitor with a built-in privacy filter that keeps sensitive and confidential data on the screen from being visually compromised. The VG2448-PF maintains a clear view directly in front of the screen, while blocking visibility when the screen is viewed from a side angle. For enhanced productivity, an advanced ergonomic design offers a wide range of customizable adjustments for maximum comfort including pivot, swivel, height adjustment, and 40° tilt. Versatile connectivity options include HDMI, DisplayPort, VGA, and USB 3.0. This monitor is also shipped in eco-friendly biodegradable packaging, along with an easy-to-install quick release stand that makes for simple out-of-the box setup. With the built-in privacy filter and comfortable ergonomics, the VG2448-PF is an ideal solution for use in medical, financial, or other facilities that require data security.
