## Key Features

---

- Easily Control and Manage Compatible RS232C Displays
- Communicate Urgent Alerts and Multimedia Broadcasts
- Seamless Casting Capabilities
- Create a Complete Collaboration Solution
- Convenient Power-Delivery Through PoE (Power over Ethernet)

## Product Description

---

The ViewSonic® ViewBoard® VBS200-A Smart AV Controller makes managing and maintaining compatible RS232C displays a breeze. All you need to do is enroll it with ViewSonic Manager™ software, then you can manage compatible displays from a centralized dashboard. For premium features such as communicating urgent alerts and multimedia broadcasts, you can upgrade to ViewSonic Manager™ advanced software. Plus, when used with ViewSonic Display and ViewBoard Cast apps, the VBS200-A allows you to wirelessly share your screen and collaborate in real time with other users. The VBS200-A also doubles as a powerful PC to connect peripherals and compatible displays—allowing you to use your monitor, digital display or projector as a stand-alone digital podium device. Just connect it to your desired display and start mirroring content to a larger screen. With Power over Ethernet (PoE) and boasting versatile connectivity options, the VBS200-A provides IT managers with an easy to setup remote management system wherever they are, no matter the time of day.
